

APIS[®]
NATURAL  COSMETICS
Professional

Product catalogue

TIME CANNOT BE STOPPED, BUT YOU CAN SLOW DOWN ITS EFFECTS

Welcome to the world of professional cosmetics. We are pleased to present our offer, which currently includes over 400 products. Interesting recipes bring a lot of innovation, using the latest achievements in biotechnology and cosmetology.

APIS NATURAL COSMETICS is a family company that has been producing multifunctional cosmetics for face and body care for over 35 years.

The founder of the company is biotechnologist Krystyna Arcabowicz, passionate about cosmetology, whose main goal is the highest quality of the products and the pursuit of perfection

The technologies in APIS NATURAL COSMETICS are developed from scratch and combine the best natural ingredients with the latest advances in biotechnology and cosmetology.

We are the first Polish company to produce and market cosmetic products with Dead Sea minerals. We have our own microbiological, technological and physicochemical laboratories.

We work in accordance with the requirements of ISO 22716 GMP (Good Manufacturing Practices). In order to confirm the highest quality of our products, we obtained the TÜV Rheinland GMP ISO 22716 mark in 2016.

In the search for innovative solutions in the field of biochemistry, biotechnology and biology, APIS NATURAL COSMETICS closely cooperates with scientific and research institutes. Constantly expanding the scope of research conducted by experienced dermatologists, biologists and cosmetologists confirming the high effectiveness of cosmetics. Systematic tests of cosmetics allow us to maintain their quality at the highest level. Striving for perfection in the field of beauty and care, we are constantly looking for new achievements in biotechnology. The result is the introduction of new lines of professional cosmetic products intended for SPA salons, schools and cosmetic wholesalers. These products include make-up removers, exfoliation, scrubs, algae and cream masks, concentrates, creams, body balms and cosmetic accessories.

Meeting our clients' expectations, we conduct trainings, the advantage of which is the transfer of theoretical and practical knowledge by our cosmetologists. After completing the training, the participants are prepared to perform treatments based on our products in a professional manner, receiving a certificate confirming gaining new qualifications.

Respect for nature, the latest scientific achievements and passion are the basis of our work. Our greatest pleasure is the recognition of the customers who have been with us for many years and use our products, appreciating their importance for beauty.

„Our passion is beauty and nature is our inspiration”

EXOSOMES PRO

A revolutionary method of skin biostimulation

BIOSTIMULATING TONER WITH PLANT EXOSOMES AND MARINE EXOPOLYSACCHARIDES

Indications:
for mature skin with visible signs of aging, requiring intensive regeneration, hydration and tension improvement

Active ingredients:
marigold plant exosomes, marine exopolysaccharides, hyaluronic acid, bio-propanediol

Properties:
Biostimulating tonic, developed to restore the skin's refreshed and radiant appearance, as well as reduce the visible signs of aging.

volume: 500 ml
number of treatments: 60
code: 55100

BIOSTIMULATING CLEANSING LOTION WITH PLANT EXOSOMES AND MARINE EXOPOLYSACCHARIDES

Indications:
for mature skin with visible signs of aging, requiring intensive regeneration, hydration and tension improvement

Active ingredients:
marigold plant exosomes, marine exopolysaccharides, hyaluronic acid, bio-propanediol, almond oil

Properties:
Biostimulating milk with innovative ingredients whose properties allow you to deeply rejuvenate and regenerate the skin. Its delicate formula thoroughly cleanses the skin while enriching it with valuable nutrients.

volume: 500 ml
number of treatments: 60
code: 55105

BIOSTIMULATING ALGAE MASK WITH PLANT EXOSOMES AND MARINE EXOPOLYSACCHARIDES

Indications:
for mature skin with visible signs of aging, requiring intensive regeneration, hydration and tension improvement

Active ingredients:
marigold plant exosomes, marine exopolysaccharides, red algae hydrolyzate

Properties:
Biostimulating algae mask, designed for intensive skin regeneration and rejuvenation. The effect of using the mask is improved skin structure, reduced visibility of wrinkles and a lifted and re-shaped facial contour.

volume: 200 g
number of treatments: 13
code: 55115

BIOSTIMULATING CREAM WITH PLANT EXOSOMES AND MARINE EXOPOLYSACCHARIDES

Indications:
for mature skin with visible signs of aging, requiring intensive regeneration, hydration and tension improvement

Active ingredients:
marigold plant exosomes, marine exopolysaccharides, hyaluronic acid, phytocollagen, Bakuchi oil (Bakuchiol), squalane, shea butter

Properties:
Biostimulating cream created for deep rejuvenation and regeneration of the skin. It intensifies hydration and nourishment, resulting in firm and elastic skin.

volume: 100 ml
number of treatments: 30
code: 55095

BIOSTIMULATING AMPOULES WITH PLANT EXOSOMES AND MARINE EXOPOLYSACCHARIDES

Indications:
for mature skin with visible signs of aging, requiring intensive regeneration, hydration and tension improvement

Active ingredients:
marigold plant exosomes, marine exopolysaccharides, hyaluronic acid, phytocollagen, red algae extract

Properties:
Biostimulating ampoules with a breakthrough ingredient supporting deep regeneration and reconstruction of the skin. As a result, the skin becomes stronger, thickened and tighter. It revitalizes the skin, but also provides it with long-lasting support and renewal, necessary for a beautiful and healthy appearance.

volume: 10x3ml
number of treatments: 10
code: 55110

EXOSOMES PRO

A revolutionary method of skin biostimulation

HOME THERAPIS BIOSTIMULATING CREAM WITH PLANT EXOSOMES AND MARINE EXOPOLYSACCHARIDES

Indications:

for mature skin with visible signs of aging, requiring intensive regeneration, hydration and tension improvement

Active ingredients:

marigold plant exosomes, marine exopolysaccharides, hyaluronic acid, phytocollagen, Bakuchi oil (Bakuchiol), squalane, shea butter

Properties:

Created with attention to every detail, a unique cream with a formula for deep rejuvenation and intensive skin regeneration. It creates a composition that not only revitalizes the skin, but also provides it with long-lasting protection and nourishment.

It is intended for continued home care after the professional treatments.

volume: 50 ml

code: 55120

INDICATION:

- mature skin with visible signs of aging
- skin requiring intensive regeneration
- skin requiring moisturization and improvement of tension

EFFECTS:

- deeply regenerates and intensively moisturizes
- gives the result of reconstruction and thickening of the skin structure
- stimulates the production of collagen and extracellular matrix
- improves skin tension and firmness
- reduces wrinkles
- provides antioxidant protection against aging

Skin restructuring treatment

Revolutionary solution for skin requiring intensive regeneration and reconstruction - **exosomes**. These microscopic vesicles sourced from plant cells carry the most important information in the form of proteins, lipids and carbohydrates deep into the skin. The use of exosome technology in an ampoule combined with microneedling treatment gives a double therapeutic effect – supports the skin's natural ability to self-regenerate and the created microchannels enable the effective penetration of exosomes into the skin.

Cosmetology expert

MSc Iga Bielawska

MAIN ACTIVE INGREDIENTS:

PLANT EXOSOMES

Microvesicles with a size of 10 to 100 nm originating from plant stem cells. Their main task is to transport the most important active substances such as proteins, lipids, enzymes, antioxidants and carbohydrates directly to skin cells.

Thanks to this, they support natural biological processes for deep regeneration, have a rejuvenating effect, stimulate collagen production and thicken the skin structure.

MARINE EXOPOLYSACCHARIDES

A natural ingredient produced by marine plankton. Stimulates the renewal of collagen and elastin fibers in the skin.

It tightens the skin, correcting crow's feet and leveling any unevenness in its structure.

PHYTOCOLLAGEN

A plant alternative to collagen with excellent moisturizing and smoothing properties.

Phytocollagen makes the skin elastic, reduces lines and wrinkles and supports regeneration.

BAKUCHI OIL (BAKUCHIOL)

A natural ingredient with properties similar to retinol, but with a more gentle effect on the skin.

It has anti-wrinkle, antioxidant and anti-acne properties.

DEPIQ PRO SYSTEM

Discoloration-free skin - discover the full spectrum of brightening effects

DEPIGMENTING PEELING WITH TRANEXAMIC ACID 1% AND FICIN

Indications:
for all skin types prone to hormonal, sun-related and post-inflammatory discolorations, affected by photoaging

Active ingredients:
1% tranexamic acid, licorice extract, ficin, neroli hydrolate

Properties:
Extremely effective and at the same time gentle peeling with depigmenting properties. Peeling allows you to limit the process of melanin formation in the skin at various stages. The product promotes the renewal of epidermal cells and the reduction of dark spots.

volume: 200 ml
number of treatments: 23
code: 55075

MASK FOR ADVANCED DEPIGMENTATION OF DISCOLORATIONS (ampoule+capsule)

Indications:
for all skin types prone to hormonal, sun-related and post-inflammatory discolorations, affected by photoaging

Active ingredients:
2% α-arbutin, 4% glutathione, 4% complex composed of six highly effective active brightening substances: tranexamic acid, mandelic acid, lactobionic acid, carnosine, niacinamide and Nonapeptide-1 along with licorice extract

Properties:
Innovative treatment mask for advanced depigmentation of discolorations. Thanks to the combination of the capsule and the activator, the mask gains a full spectrum of brightening effects.

volume: 10x3 ml+10x0,7 g
number of treatments: 10
code: 55085

DEPIGMENTING AMPOULE WITH α-ARBUTIN 1% AND BRIGHTENING COMPLEX 2%

Indications:
for all skin types prone to hormonal, sun-related and post-inflammatory discolorations, affected by photoaging

Active ingredients:
2% of a complex consisting of six highly effective active brightening substances: tranexamic acid, mandelic acid, lactobionic acid, carnosine, niacinamide, nonapeptide-1 and licorice extract, 1% α-arbutin, 13% hyaluronic acid

Properties:
A combination of advanced and concentrated active ingredients with depigmenting properties and limiting the process of melanin formation in the skin. The result is brightened and radiant skin.

volume: 10x3ml
number of treatments: 10
code: 55045

HOME THERAPY DEPIGMENTING BOOSTER WITH α-ARBUTIN 1% AND BRIGHTENING COMPLEX 1%

Indications:
for all skin types prone to hormonal, sun-related and post-inflammatory discolorations, affected by photoaging

Active ingredients:
1% complex composed of six highly effective active substances: tranexamic acid, mandelic acid, lactobionic acid, carnosine, niacinamide, nonapeptide-1 and licorice extract, hyaluronic acid Hydromaniol™ complex, squalane

Properties:
A revolutionary booster with depigmenting properties that affects many stages of melanogenesis. Thanks to this, it eliminates and prevents the appearance of discolorations of various origins. It is intended for continued home care after the professional treatments.

volume: 30 ml
code: 55055

DEPIQ PRO SYSTEM

Discoloration-free skin - discover the full spectrum of brightening effects

HOME THERAPY

DEPIGMENTING CREAM-MASK WITH α -ARBUTIN 1% FOR NIGHT

Indications:

for all skin types prone to hormonal, sun-related and post-inflammatory discolorations, affected by photoaging

Active ingredients:

1% α -arbutin, a complex of as many as 6 active ingredients: tranexamic acid, mandelic acid, lactobionic acid, carnosine, niacinamide and Nonapeptide-1

Properties:

Skin care cream-mask that provides intense depigmenting effect during night regeneration. Its action makes the skin looking radiant with a brightened and even tone after waking up. It is intended for continued home care after the professional treatments.

volume: 50 ml

code: 55065

INDICATION:

- skin prone to hormonal, sun-related and post-inflammatory discolorations
- skin with symptoms of photoaging (wrinkles, uneven color, loss of firmness)

EFFECTS:

- eliminating discolorations and preventing their recurrence
- unification of skin tone
- protection of the skin against the harmful effects of free radicals
- preventing the degradation of collagen and elastin fibers

Depigmentation of natural origin

The action of the **depigmenting mask** does not involve exfoliation of epidermis cells - for this stage responsible is peeling. Mask is designed to provide a depigmenting effect thanks to specially selected brightening ingredients. Full spectrum of mask effects occurs after combining the antioxidant capsule with activator. When applied to the skin, the preparation limits activity of enzyme (tyrosinase) responsible for accumulation of melanin.

Cosmetology expert

MSc Iga Bielawska

DepiQ Pro System line won the award
Beauty Forum Stars Award 2024 Poland

DepiQ Pro System line was honored
with the award **Innovation LNE 2024**.

MAIN ACTIVE INGREDIENTS:

TRANEXAMIC ACID

Limits the synthesis of melanin in the skin, thus preventing its accumulation in the form of discoloration. Its additional advantage is its gentleness and soothing effect on blood vessels, which makes it perfect for the treatment of melasma and fresh post-inflammatory discolorations.

α -ARBUTINA

It is characterized by the most effective brightening effect and greater stability than β -arbutin. When applied topically it inhibits tyrosinase and thus prevents the formation of melanin and discoloration.

COMPLEX OF 6 ACTIVE BRIGHTENING SUBSTANCES

Composed of: tranexamic acid, mandelic acid, lactobionic acid, carnosine, niacinamide and Nonapeptide-1 that work together to achieve a multidimensional effect: uniform color and brightening of the skin from the outside to the inside, restoring the radiance of dull skin, reducing wrinkles and moisturizing the skin.

COFFEE SHOT

Skin-Plumping effect - naturally filled and youthfully firm skin

COFFEE ANTI-AGING CREAM WITH CAFFEIC ACID AND POPPY EXTRACT

Indications:
for gray, tired skin with discolorations that requires a strong anti-aging treatment

Active ingredients:
caffeic acid, poppy extract, hyaluronic acid, amino acids, coffee oil, jojoba oil

Properties:
Cream with a pleasant coffee aroma and rich composition that stimulates the skin to rebuild and revitalize. It allows you to achieve the effect of naturally filled and youthfully firm skin - the so-called "Plumping effect".

volume: 100 ml
number of treatments: 30
code: 53995

BIOACTIVE MASK WITH CAFFEIC ACID AND COFFEE SEED OIL

Indications:
for gray, tired skin with discolorations that requires a strong anti-aging treatment

Active ingredients:
caffeic acid, amino acids, coffee seed oil, poppy flower extract, hyaluronic acid, jojoba oil

Properties:
A mask with a high content of active ingredients and an aromatic coffee scent. The product helps to reduce wrinkles, restores the skin's appropriate density and has strong depigmentation properties.

volume: 200 ml
number of treatments: 23
code: 53985

HYDROGEL PEELING WITH CAFFEIC ACID AND ARABICA COFFEE BEANS

Indications:
for gray, tired skin with discolorations that requires a strong anti-aging treatment

Active ingredients:
aromatic Arabica coffee beans from Brazil, natural exfoliating particles, caffeic, azelaic and lactic acids

Properties:
Effectively smoothes the skin surface by removing dead epidermis and accelerates cell renewal. It leaves the skin brighter, smooth, better oxygenated and radiant.

volume: 200 ml
number of treatments: 23
code: 54015

BIOREVITALIZING ALGAE MASK WITH CAFFEIC ACID AND ARABICA COFFEE BEANS

Indications:
for gray, tired skin with discolorations that requires a strong anti-aging treatment

Active ingredients:
caffeic acid, poppy extract, d-panthenol, amino acids

Properties:
Helps to reduce wrinkles, restores the skin's appropriate density and has strong depigmentation and revitalizing properties. It allows you to achieve the effect of rejuvenated, moisturized and firmer skin - the so-called "plumping effect".

volume: 200 g
number of treatments: 13
code: 54045
* Available also in 20 g!

BIOREVITALIZING EYE MASK WITH CAFFEIC ACID AND COFFEE SEED OIL

Indications:
for the skin around the eyes with signs of fatigue, swelling, puffiness and dark circles under the eyes

Active ingredients:
caffeic acid, coffee seed oil, jojoba oil, coenzyme Q10, poppy extract, hyaluronic acid

Properties:
Leaves the skin illuminated, reduces wrinkles and "crow's feet". The stimulation of microcirculation makes the dark circles under the eyes lighter and the puffiness completely disappears.

volume: 50 ml
number of treatments: 50
code: 54035

HOME TERAPIS BIOREVITALIZING EYE SERUM WITH CAFFEIC ACID AND COFFEE SEED OIL

Indications:
for the skin around the eyes with signs of fatigue, swelling, puffiness and dark circles under the eyes

Active ingredients:
coffee oil, caffeic acid, poppy extract, hyaluronic acid, jojoba oil with vitamin A

Properties:
A delicate serum that will soothe and relax the tired eye area. It will leave the skin taut and maximally moisturized, achieving a real "Plumping effect". It is intended for continued home care after the professional treatments.

volume: 10 ml
code: 54005H

COFFEE SHOT

Skin-Plumping effect - naturally filled and youthfully firm skin

COFFEE ANTI-AGING AMPOULE WITH 5% CAFFEIC ACID AND POPPY EXTRACT 'PLUMPING EFFECT'

Indications:

for gray, tired skin with discolorations that requires a strong anti-aging treatment

Active ingredients:

caffeic acid, poppy flower and orchid extracts, hyaluronic acid

Properties:

Coffee essence in an ampoule. Gives the appearance of naturally fuller and visually rejuvenated skin - "Plumping effect". Optimally hydrated skin becomes firm, elastic, better nourished and radiant.

volume: 10x3 ml

number of treatments: 10

code: 54025

INDICATION:

- gray, tired, discolored skin
- skin requiring strong anti-aging treatment
- skin around the eyes with signs of fatigue, swelling, puffiness and dark circles under the eyes

EFFECTS:

- prevents the degradation of collagen and elastin fibers in the skin
 - slows down the aging process and restores the skin's proper density
 - helps reduce wrinkles and has strong depigmentation properties
 - allows you to achieve the so-called skin-plumping effect.
- "Pumping" the skin makes it naturally fuller, radiant and visually rejuvenated

"Pumping" the skin - i.e. skin plumping

The extraordinary effect we can achieve thanks to the **skin-plumping** method consists of maximum hydration, lifting and tightening of the skin. The unique combination of active ingredients in the **Coffee Shot** line is responsible for this natural "filling". They increase the expression of hyaluronic acid in the dermis, improve the density of the collagen network and maintain an exemplary structure of the dermal-epidermal connection. Providing the skin with a large amount of water determines the appropriate elasticity and tension. It also allows you to smooth out wrinkles, eliminates dryness and irritation, and provides an optimal environment for its functioning. Thanks to such treatment, we can see a healthy, youthfully firm, and radiant complexion.

Regional manager - trainer

Cosmetology expert

MSc Katarzyna Skoczek

MAIN ACTIVE INGREDIENTS:

CAFFEIC ACID

An innovative ingredient with strong anti-radical properties. Caffeic acid prevents the degradation of collagen and elastin fibers, thus slowing down the skin aging process.

It brightens existing discolorations and evens out the skin tone.

COFFEE SEED OIL

It's not only caffeine, but also a wealth of phytosterols, essential fatty acids, polyphenols, chlorogenic acid and vitamin E. It has regenerating properties, soothes irritations, tightens and elasticizes the skin.

POPPY FLOWER EXTRACT

It has an anti-aging effect by improving the expression of hyaluronic acid in the skin. Increases the density of the collagen network maintaining a good structure of the dermal-epidermal junction.

PLATINUM GLOSS

Rejuvenating treatment with platinum and copper tripeptide

PLATINUM REJUVENATING MASK WITH COPPER TRIPEPTIDE AND NIACINAMIDE

Indications:
for mature skin, requiring brightening, regeneration and smoothing

Active ingredients:
colloidal platinum, copper tripeptide, niacinamide

Properties:
Rejuvenating gel mask with silver capsules. It has strong anti-aging potential. Smooths fine lines and wrinkles. Accelerates the natural regeneration process.

volume: 200 ml
number of treatments: 23
code: 53975

PLATINUM ALGAE MASK WITH COPPER TRIPEPTIDE AND NIACINAMIDE

Indications:
for mature skin, requiring brightening, regeneration and smoothing

Active ingredients:
colloidal platinum, copper tripeptide, niacinamide

Properties:
It accelerates skin renewal and regeneration, smooths wrinkles and counteracts the aging process. It makes the skin regain its young and refreshed appearance.

volume: 200 g
number of treatments: 13
code: 54055
*Available also in 20 g!

REJUVENATING ELIXIR WITH PLATINUM AND COPPER TRIPEPTIDE

Indications:
for mature skin, requiring brightening, regeneration and smoothing

Active ingredients:
colloidal platinum, copper tripeptide, niacinamide, squalene

Properties:
Visibly reduces the tendency to develop facial wrinkles and pigmentation spots. It adds vitality to the skin, deeply moisturizes and restores its healthy condition. Smoothed and nourished skin gains a natural illuminating effect - "Platin glow".

volume: 30 ml
number of treatments: 20
code: 53945

ACTIVE REJUVENATING CONCENTRATE WITH PLATINUM AND COPPER TRIPEPTIDE

Indications:
for mature skin, requiring brightening, regeneration and smoothing

Active ingredients:
colloidal platinum, copper tripeptide, niacinamide

Properties:
Protects the skin against chronological aging and photoaging. The skin becomes firm and elastic, and wrinkles are less visible.

volume: 30 ml
number of treatments: 20
code: 53935

HOME THERAPIS REVITALIZING EYE CREAM WITH PLATINUM AND BIOACTIVE PEPTIDES

Indications:
for mature skin around the eyes requiring brightening, regeneration and smoothing

Active ingredients:
Fu-Ling mushroom extract with two bioactive peptides (acetyl 5-tetrapeptide, dipeptide-2), coenzyme Q10, echium oil, shea butter

Properties:
An advanced formula of the eye area cream with strong repairing properties. Reduces "crow's feet", giving the young and refreshed look. It is intended for continued home care after the professional treatments.

volume: 10 ml
code: 53955H

HOME THERAPIS PLATINUM REJUVENATING CREAM

Indications:
for mature skin, requiring brightening, regeneration and smoothing

Active ingredients:
colloidal platinum, niacinamide, copper tripeptide, echium seed oil, shea butter

Properties:
It makes wrinkles significantly smoother. It leaves the skin bright, elastic and visibly rejuvenated. It is intended for continued home care after the professional treatments.

volume: 50 ml
code: 53965H

PLATINUM GLOSS

Rejuvenating treatment with platinum and copper tripeptide

INDICATION:

- mature skin
- skin requiring illumination, regeneration and smoothing

EFFECTS:

- allows you to achieve a visible improvement in skin tension and elasticity, restoring its youthful appearance
- shows strong anti-aging potential, minimizes damage caused by UV radiation
- reduces "crow's feet" around the eyes and facial wrinkles
- accelerates the process of regeneration and reconstruction of the skin structure and supports the production of collagen and elastin fibers
- smooth and nourished skin gains a natural illuminating effect - "Platin glow"

The fantastic benefits of platinum

Skin ageing is inevitable, but we can effectively counteract it. The presence of platinum, one of the most unusual precious metals, allows the skin to retain its youthful appearance for longer. Its antioxidant properties protect against damage caused by the activity of free radicals. In addition, it affects tissue regeneration faster by stimulating cell renewal and repairing damaged skin cells. Colloidal **platinum** improves density and ensures proper tension and skin tone. It prevents the degeneration of collagen and elastin fibres with age, reduces pigmentation spots and brightens acne lesions. Under its influence, the skin becomes firmer, fuller and brighter, and wrinkles and fine lines disappear.

Cosmetology expert
MSc Iga Bielawska

MAIN ACTIVE INGREDIENTS:

COLLOIDAL PLATINUM

It has a cleansing, soothing, regenerating and anti-inflammatory effect. Reduces skin discolouration.
Reconstructs skin tissues and strengthens the effect of antioxidants.
It supports hydration, smoothes the skin and brightens it.

COPPER TRIPEPTIDE

Supports the production of collagen and elastin, which reduces fine lines and wrinkles.
It acts as an antioxidant, minimizes the effects of skin ageing, and regenerates the dermis.

ECHIUM SEED OIL

Of a high containment of fatty acids and phospholipids. It creates a film on the skin's surface, limiting excessive water evaporation from the epidermis. It has anti-inflammatory, regenerating and anti-ageing properties.
It rebuilds the lipid layer and reduces skin roughness.

HYALURONIC ACID

It is a mucopolysaccharide that connects collagen and elastin fibers in the dermis.
It is one of the most valuable moisturizing ingredients.

NIACINAMIDE

Vitamin B3 reduces the visibility of dilated sebaceous glands, improves skin hydration and prevents discolouration.

BIO-PROPANEDIOL

It is a vegetable alternative to glycol, has a moisturizing effect, and supports the penetration of active ingredients into the skin.

ROSACEA-STOP

Specialistic treatment for skin with rosacea

REDNESS REDUCING SERUM

Indications:
for skin with rosacea, irritated, sensitive, prone to telangiectasia and redness

Active ingredients:
Chaga mushroom adaptogen, Agascalm™, red coral algae extract, arnica, passion fruit oil

Properties:
Soothes and restores comfort by reducing inflammation and irritation. Reduces the visibility of erythema, moisturizes, restores radiance and uniform skin tone.

volume: 100 ml
number of treatments: 30
code: 53885

SOOTHING MASK

Indications:
for skin with rosacea, irritated, sensitive, prone to telangiectasia and redness

Active ingredients:
Chaga mushroom adaptogen, Agascalm™, azelaic acid acid, red coralline algae extract

Properties:
Effectively reduces inflammations in rosacea, accelerates regeneration, soothes and calms excessively reactive skin.

volume: 200 ml
number of treatments: 23
code: 53875

SOOTHING DAMASCUS ROSE HYDROLATE

Indications:
for skin with rosacea, irritated, sensitive, prone to telangiectasia and redness

Active ingredients:
damask rose hydrolate, Agascalm™, Chaga mushroom adaptogen, red coralline algae extract

Properties:
It strengthens, seals blood vessels, tones and balances the pH of the skin. The product soothes sensitive skin.

volume: 300 ml
number of treatments: 50
code: 53855

* during rosacea remission

INTENSIVE STRENGTHENING AND SOOTHING AMPOULES

Indications:
for skin with rosacea, irritated, sensitive, prone to telangiectasia and redness

Active ingredients:
damask rose hydrolate, Chaga mushroom adaptogen, Agascalm™, hyaluronic acid, Aloe Vera pulp juice, red coralline algae extract

Properties:
Concentrated ampoules strengthen, seal blood vessels, tone and balance the skin. They intensively moisturize and soothe, accelerating the regeneration of overly reactive skin.

volume: 10x3 ml
number of treatments: 10
code: 53865

HOME THERAPY SOOTHING FACE WASH GEL **NEW**

Indications:
for skin with rosacea, sensitive, irritated, prone to telangiectasia and redness

Active ingredients:
Agascalm™, red coral algae extract, arnica extract, d-panthenol

Properties:
Regular cleansing of the face with the gel helps reduce the number of inflammatory changes, thanks to which the skin regains a uniform shade. Accelerates the regeneration of irritations, bringing comfort to sensitive skin.

volume: 300 ml
code: 55125

ROSACEA-STOP

Specialistic treatment for skin with rosacea

HOME THERAPIS SOOTHING NIGHT CREAM

Indications:

for skin with rosacea, irritated, sensitive, prone to telangiectasia and redness

Active ingredients:

Agascal™, azelaic acid, Chaga mushroom adaptogen, red coral algae extract, arnica extract, passion fruit oil, hyaluronic acid

Properties:

An intensively acting cream designed to soothe delicate and overly reactive skin, leaving it smooth and radiant every morning.

It is intended for continued home care after the professional treatments.

volume: 50 ml

code: 53895H

INDICATION:

- skin with rosacea
- sensitive and irritated skin
- skin prone to telangiectasia and redness

EFFECTS:

- effectively reduces inflammations in rosacea
- accelerates regeneration, soothes and calms overly reactive skin
- strengthens the skin's natural protective system by strengthening the barrier functions and the microvascular network

Rosacea-Stop

As we know, skin with rosacea is very sensitive and difficult to treat. The proper skin-care routine depends on its condition and various signs and symptoms. Dermatological treatment combined with treatments in a beauty salon play an extremely important role and give a long-lasting results. **Rosacea-Stop** treatment contains specialist active ingredients that soothe and calm the skin after the first use. The combination of unique ingredients works multidirectional to improve skin appearance. Professional treatments followed with proper home care help to reduce pro-inflammatory skin reaction and redness, bringing relief to tired and sensitive skin.

Regional manager - trainer

Cosmetology expert

MSc Katarzyna Skoczek

MAIN ACTIVE INGREDIENTS:

CHAGA MUSHROOMS EXTRACT (ADAPTOGEN)

Thanks to its antioxidant and anti-inflammatory properties, it strengthens the natural protective system of the skin by improving the barrier functions and the microvascular network.

ROSE WATER

The ingredient strengthens blood vessels, has antioxidant and anti-wrinkle properties. It stimulates skin regeneration, smoothes and improves skin elasticity.

AGASCAL™

It has excellent anti-inflammatory effects, modulating the mechanisms responsible for the negative impact of stress on the skin. Agascal™ reduces long-term vasodilation by 25-30%.

It also inhibits the pro-inflammatory reaction of the skin, bringing relief to tired and sensitive skin.

RED CORAL ALGAE EXTRACT

This multifunctional ingredient has anti-aging properties and restores the proper structure of the skin. Due to the high content of calcium, it stimulates cellular respiration, constricts blood vessels and reduces rosacea.

LIFTING PEPTIDE

Luxurious, strongly lifting and tightening treatment 'botox-like'

LIFTING AND TENSING ALGAE MASK WITH SNAP-8™ PEPTIDE

Indications:
for all types of mature, dehydrated skin with a tendency to wrinkles, that requires quick lifting

Active ingredients:
biomimetic SNAP-8™ peptide, hyaluronic acid 4D

Properties:
Improved density and reduction of facial wrinkles as well as excellent skin hydration at various levels.

volume: 200 g
number of treatments: 13
code: 53915

LIFTING AND TENSING MASK WITH SNAP-8™ PEPTIDE

Indications:
for all mature skin types, dehydrated with tendency to wrinkles, that requires quick lifting

Active ingredients:
biomimetic SNAP-8™ peptide, Cobiolift™, coenzyme Q10, hyaluronic acid, monoi and macadamia nut oils

Properties:
The unique composition of the mask guarantees improvement of skin density, hydration and tension.

volume: 200 ml
number of treatments: 23
code: 53785
* Available also in 100 ml

LIFTING AND TENSING CREAM WITH SNAP-8™ PEPTIDE

Indications:
for all mature skin types, dehydrated with tendency to wrinkles, that requires quick lifting

Active ingredients:
neuropeptide SNAP-8™ peptide, coenzyme Q10, hyaluronic acid, monoi and macadamia nut oils, Cobiolift™

Properties:
The preparation is quickly absorbed by the skin. The product firms, moisturizes and evens out the skin tone. The skin is delicately illuminated and tense.

volume: 100 ml
number of treatments: 30
code: 53805

LIFTING AND TENSING EYE SERUM WITH SNAP-8™ PEPTIDE

Indications:
for all mature skin around eyes, dehydrated with tendency to wrinkles, in need of quick lifting

Active ingredients:
biomimetic neuropeptide SNAP-8™ peptide, coenzyme Q10, hyaluronic acid, monoi and macadamia nut oils, Cobiolift™

Properties:
The serum firms, brightens and tightens the skin. The effect is visible after the first application.

volume: 30 ml
number of treatments: 20
code: 53795

LIFTING AND TENSING EYE MASK WITH SNAP-8™ PEPTIDE

Indications:
for all mature skin around eyes

Active ingredients:
biomimetic neuropeptide SNAP-8™ peptide, coenzyme Q10, monoi and macadamia nut oils

Properties:
Effectively reduces fine wrinkles, tightens and elasticizes. Perfectly cares for the eye area, restoring vitality and youthful appearance.

volume: 50 ml
number of treatments: 50
code: 53845

LIFTING AND TENSING ULTRASOUND GEL WITH SNAP-8™ PEPTIDE

Indications:
for all mature skin types

Active ingredients:
biomimetic neuropeptide SNAP-8™ peptide, coenzyme Q10, hyaluronic acid, betaine

Properties:
Reduces facial wrinkles, improves skin tension and perfectly moisturizes.

volume: 200 ml
number of treatments: 23
code: 53835

HYALURON 4D WITH SNAP-8™ PEPTIDE

Indications:
for all mature skin types, dehydrated with tendency to wrinkles, that requires quick lifting

Active ingredients:
hyaluronic acid composed of four types of hyaluronan molecules, neuropeptide SNAP-8™ peptide

Properties:
It perfectly moisturizes the skin at various levels, improves its density and reduces facial wrinkles. The skin structure is visibly smoothed, with a higher degree of firmness and elasticity, fresh and radiant.

volume: 30 ml
number of treatments: 20
code: 53665

LIFTING PEPTIDE

Luxurious, strongly lifting and tightening treatment 'botox-like'

HOME THERAPIS LIFTING AND TENSING CREAM WITH SNAP-8™ PEPTIDE

Indications:
for all mature skin types, dehydrated with tendency to wrinkles, that requires quick lifting

Active ingredients:
biomimetic neuropeptide SNAP-8™ peptide, coenzyme Q10, hyaluronic acid, monoi and macadamia nut oils, Cobiolift™

Properties:
The preparation quickly penetrates the skin, firms, moisturizes and evens out the skin tone. The skin is delicately illuminated and tense. It is intended for continued home care after the professional treatments.

volume: 50 ml
code: 53805MP

HOME THERAPIS LIFTING AND TENSING EYE SERUM WITH SNAP-8™ PEPTIDE

Indications:
for all types of mature skin around the eyes, dehydrated with tendency to wrinkles, in need of quick lifting

Składniki aktywne:
neuropeptide SNAP-8™ peptide, coenzyme Q10, hyaluronic acid, monoi oil, macadamia nut oil, Cobiolift™

Właściwości:
The serum visibly firms, brightens and tightens. The effect is visible after the first application. It is intended for continued home care after the professional treatments.

volume: 10 ml
code: 53795H

INDICATION:

- mature skin
- dehydrated skin
- skin prone to wrinkles
- skin requiring quick lifting
- mature skin around the eyes

EFFECTS:

- the effect of instant lifting and skin tightening
- blocks contractions of facial muscles and is an alternative to botulinum toxin
- reduces facial wrinkles
- perfectly moisturizes the skin at various levels

MAIN ACTIVE INGREDIENTS:

SNAP-8™ PEPTIDE

The mechanism of SNAP-8™ is based on blocking contraction of mimic muscles, as a result wrinkles become shallower and the skin is smoothed. It is an alternative to botulinum toxin.

COENZYME Q10

It has a rejuvenating effect on the skin, reduces fine lines and increases skin elasticity and tension.

HYALURONIC ACID

It is a mucopolysaccharide that connects collagen and elastin fibers in the dermis.
It is one of the most valuable moisturizing ingredients.

MONOI OIL

Oil from the Tahiti Islands. It combines the nourishing coconut oil with the exotic scent of gardenia flowers. It perfectly moisturizes and nourishes the skin and hair. Gardenia flower extract gives the oil soothing and anti-inflammatory effects.

COBIOLIFT™

Obtained from quinoa seeds. Due to the high content of polysaccharides, it provides film-forming and moisturizing effects. Provides a lifting effect and a youthful appearance of the skin, immediate evenness of the skin surface, reduction of wrinkles in the area of crow's feet.

REVOLUTION IN HYDRATION

A revolutionary moisturizing method on various skin levels

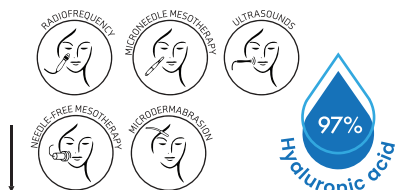

HYALURON 4D

Indications:
for all skin types, especially dry and dehydrated

Active ingredients:
hyaluronic acid 99%

Properties:
Odorless hyaluronic acid 4D is an innovative combination of four types of hyaluronan molecules with different properties. It has a strong moisturizing effect, collecting water from the outside while keeping water deep in the skin.

volume: 30 ml
number of treatments: 20
code: 53525

HYALURON 4D Z ARGIRELINE™ PEPTIDE

Indications:
for all skin types especially dry, dehydrated with a tendency to mimic wrinkles, that requires smoothing

Active ingredients:
hyaluronic acid 97%, biomimetic peptide Argireline

Properties:
An odorless preparation created according to a unique recipe. It contains hyaluronic acid composed of four sizes of hyaluronan molecules and a biomimetic peptide composed of six amino acids ARGIRELINE™ peptide, which is "pseudobutulin". The synergistic action of the ingredients gives a feeling of superficial muscle relaxation with an optimal degree of hydration.

volume: 30 ml
number of treatments: 20
code: 53655

HYALURON 4D + LINGOSTEM™

Indications:
for dry and dehydrated skin

Active ingredients:
hyaluronic acid 10%, active lingonberry stem cells, 6 amino acids, macadamia nut oil

Properties:
A unique emulsion that is a mixture of hyaluronic acid 4D with extremely intense moisturizing properties at various levels of the skin. Enriched with active lingonberry stem cells, 6 essential amino acids and macadamia nut oil. The result is oiled, moisturized, firm and smooth skin.

volume: 30 ml
number of treatments: 20
code: 53535

EYE SERUM WITH EYE'FEKTIVE™ COMPLEX

Instant smoothing and lifting effect

LIFTING AND DARK CIRCLES REDUCING EYE SERUM WITH EYE'FEKTIVE™ COMPLEX

Indications:

for mature skin around eyes in the need of dark circles reduction, firming and smoothing

Active ingredients:

Eye'fective™ complex, hemp oil, ceramides, hyaluronic acid, coenzyme Q10, monoi oil, amino acids

Properties:

Serum has a lifting effect, reducing the drooping of the upper eyelid. As a result, the skin around the eyes is regenerated, moisturized, smoothed and illuminated with a radiant look.

volume: 30 ml
number of treatments: 20
code: 53725

HOME THERAPY LIFTING AND DARK CIRCLES REDUCING EYE SERUM WITH EYE'FEKTIVE™ COMPLEX

Indications:

for mature skin around eyes in the need of dark circles reduction, firming and smoothing

Active ingredients:

Eye'fective™ complex, hemp oil, ceramides, hyaluronic acid, coenzyme Q10, monoi oil, amino acids

Properties:

Reduces dark circles under the eyes by improving the permeability of blood vessels and microcirculation. As a result, the skin around the eyes is regenerated, moisturized, smoothed and illuminated with a radiant look. It is intended for continued home care after the professional treatments.

volume: 10 ml
code: 53725H

INDICATION:

- mature skin around the eyes requiring reduction of dark circles, firming and smoothing

EFFECTS:

- dark circles reduction
- improvement of microcirculation
- has a lifting effect, reducing the drooping of the upper eyelid

Triangular care effect

The skin around the eyes is extremely delicate and much thinner than the skin of the face. Therefore, the eye area is also the first area where signs of aging are visible. The **Eye'fective™ complex** has a triangular care effect: it reduces dark circles around the eyes, raises eyelids and smoothes wrinkles. **Eye'fective™** is a combination of extracts derived from hawthorn flowers and Arabian jasmine, designed specifically to meet the needs of this area of skin for multifunctional eye care.

Regional manager - trainer
Cosmetology expert
MSc Katarzyna Skoczek

MAIN ACTIVE INGREDIENTS:

EYE'FEKTIVE™ COMPLEX

A combination of extracts derived from hawthorn flowers and Arabian jasmine, designed specifically to meet the needs of this skin sphere for multifunctional eye care.

HYALURONIC ACID 4D

It is an innovative combination of four types of hyaluronan molecules with different properties.

It creates a three-dimensional network that has the ability to influence various layers of the skin.

A very small molecule of hyaluronic acid included in the complex quickly and deeply penetrates the skin, providing it with full and immediate hydration from the inside. In turn, the ultra-high molecular weight hyaluronic acid reduces the amount of water lost from inside the skin, ensuring long-lasting hydration.

AMINO ACIDS

They have very good moisturizing properties. Amino acids help to bind water in dry skin and make the epidermis more elastic.

AMPOULES

Professional cosmetic lines inspired by the innovative achievements of aesthetic medicine

HYALURON 4D

Indications:

for all skin types, especially dry and dehydrated

Active ingredients:

hyaluronic acid 99%

Properties:

Odorless 4D hyaluronic acid is an innovative combination of four types of hyaluronan particle sizes with different properties. It has a strong moisturizing effect, collecting water from the outside while keeping water deep in the skin.

volume: 5x5 ml

number of treatments: 5

code: 53575

INTENSIVELY FIRMING AND SMOOTHING CONCENTRATE WITH TENS'UP™ COMPLEX

Indications:

for mature skin that needs instant lifting

Active ingredients:

hyaluronic acid 25%, TENS'UP™ complex, collagen, ceramides, macadamia oil

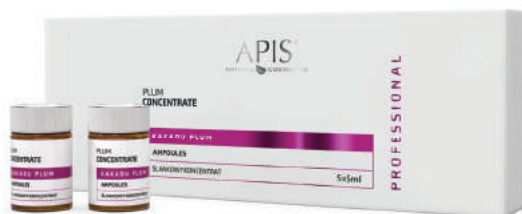

Properties:

The intensive preparation which works immediately and long-lastingly, combining a double lifting effect, reducing the visibility of wrinkles and facial lines with anti-aging activity.

volume: 5x5 ml

number of treatments: 5

code: 53555

KAKADU PLUM CONCENTRATE

Indications:

for normal and dry skin

Active ingredients:

hyaluronic acid 25%, composition of 4 multivitamin extracts from: kakadu plum fruits, cherry, mango and organic goji berries, organic oils from plum seeds and chia seeds

Properties:

Provides the skin with maximum nutrition, vitality and hydration. The product instantly revitalizes lifeless skin providing radiant, healthy and energetic glow.

volume: 5x5 ml

number of treatments: 5

code: 53585

AMPOULES

Professional cosmetic lines inspired by the innovative achievements of aesthetic medicine

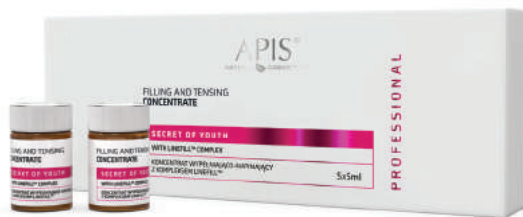

FREEZE-DRIED RASPBERRIES ACTIVATOR

Indications:
for all skin types

Active ingredients:
hyaluronic acid 15%, extract from freeze-dried raspberries, raspberry seed oil, ligonberry stem cells

Properties:
The concentrated activator has an antioxidant effect, regenerates and strongly moisturizes, greatly improving the condition of the skin.

volume: 5x5 ml
number of treatments: 5
code: 53565

FILLING AND TENSING CONCENTRATE WITH LINEFILL™ COMPLEX

Indications:
for mature skin requiring, smoothing and skin tension improvement

Active ingredients:
hyaluronic acid 25%, Linefill™ complex, Ascophyllum Nodosum i Fucus Vesiculosus brown algae, orchid extract, olive squalane

Properties:
The highly concentrated preparation that provides strong hydration, smoothes wrinkles by filling them, optimally tightens the skin, making it smooth with a diamond shine.

volume: 5x5 ml
number of treatments: 5
code: 53545

Ampoules for skin biorevitalization

To increase the effects of the treatment, use the potential of ampoules designed for different types of skin. The products are odorless, so they do not cause potential irritation. They contain the most desirable, concentrated ingredients that revitalize and rejuvenate the skin, such as **hyaluronic acid, bioactive peptides, stem cells, vitamins and antioxidants**. In addition, the single-use ampoule packaging maintain the highest quality and activity of the nourishing concentrate, which guarantees work safety. The great advantage of the ampoules is the possibility of including them in apparatus treatments using ultrasounds, radio waves, compressed oxygen or microneedling. The use of these methods will ensure even better penetration of the preparation into the skin, where it can comprehensively affect its most important functions.

RASPBERRY GLOW

Smooth and radiant skin

FREEZE-DRIED RASPBERRIES ALGAE MASK

Indications:
for all skin types

Active ingredients:
freeze-dried raspberry extract, lingonberry stem cells, ceramides

Properties:
The mask has a regenerating and moisturizing effect. It makes the skin smooth and radiant.

volume: 200 g
number of treatments: 13
code: 53405
* Available also in 20 g!

FREEZE-DRIED RASPBERRIES GEL MASK

Indications:
for all skin types

Active ingredients:
freeze-dried raspberry extract, lingonberry stem cells, hyaluronic acid, ceramides

Properties:
Effectively slows down the skin aging process. Moisturizes, regenerates, elasticizes and refreshes the skin tone.

volume: 200 ml
number of treatments: 23
code: 53415

FREEZE-DRIED RASPBERRIES SUGAR SCRUB

Indications:
for all skin types, **except for sensitive, capillary and acne skin**

Active ingredients:
cane sugar crystals, freeze-dried raspberry particles, raspberry extract, raspberry seed oil, hyaluronic acid, almond oil

Properties:
Perfectly removes dead skin cells. Peeling with an appetizing raspberry aroma visibly smoothes, moisturizes and refreshes the skin tone.

volume: 220 g
number of treatments: 15
code: 53385

FREEZE-DRIED RASPBERRIES SERUM

Indications:
for all skin types

Active ingredients:
freeze-dried raspberry extract, raspberry seed oil, lingonberry stem cells, squalane

Properties:
The result is perfectly moisturized, elastic, smooth and radiant skin.

volume: 100 ml
number of treatments: 30
code: 53425

INDICATION:

- skin requiring hydration and regeneration
- gray and tired skin
- skin requiring nourishment

EFFECTS:

- instantly moisturizes and regenerates the skin
- has an antioxidant effect
- the skin regains a fresh and radiant appearance
- protects against skin photoaging

MAIN ACTIVE INGREDIENTS:

FREEZE-DRIED RASPBERRIES

They retain very valuable nutritional, regenerating and firming characteristics. They contain a lot of vitamins from the B group, biotin, the beauty vitamin, minerals and ellagic acid with a very strong antioxidant effect.

HYALURONIC ACID

It is a mucopolysaccharide that connects collagen and elastin fibers in the dermis.
It is one of the most valuable moisturizing ingredients.

HYDROMANIL™ COMPLEX

An extract of Peruvian Tara plant with instantly moisturizing and long-term moisturizing effects.

DETOX

Bamboo charcoal and ionized silver detox

DETOXIFYING FACE SERUM WITH BAMBOO CHARCOAL AND IONIZED SILVER

Indications:
for oily and mixed skin with dilated pores and other imperfections

Active ingredients:
active bamboo carbon, ionized silver, Affipore™ and Hydromani™ complex, extracts: bamboo, cistus, iris, kiwi, neem oil

Properties:
Perfectly eliminates imperfections and makes the skin regain its perfect appearance. It provides a long-lasting effect of clean, matte skin without clogging pores and is also a perfect base for makeup.

volume: 100 ml
number of treatments: 30
code: 53255

DETOXIFYING GEL MASK WITH BAMBOO CHARCOAL AND IONIZED SILVER

Indications:
for oily and mixed skin with dilated pores and other imperfections

Active ingredients:
active bamboo carbon, ionized silver, extracts: bamboo, cistus, iris, green tea, Hydromani™ complex

Properties:
Effectively absorbs toxins, impurities and narrows enlarged pores. It restores the skin's balance, refreshes, provides a deep mattifying effect and regulates sebum production.

volume: 200 ml
number of treatments: 23
code: 53275

DETOXIFYING ALGAE MASK WITH BAMBOO CHARCOAL AND IONIZED SILVER

Indications:
for oily and mixed skin with dilated pores and other imperfections

Active ingredients:
activated bamboo carbon, ionized silver, extracts: bamboo, cistus, kiwi, iris, green tea

Properties:
Black algae mask with anti-inflammatory and antibacterial properties, effectively absorbing toxins, impurities and excess sebum from the skin. It perfectly eliminates imperfections and makes the skin regain its perfect appearance.

volume: 200 g
number of treatments: 13
code: 53265
*Available also in 20 g!

INDICATION:

- oily skin
- combination skin with enlarged pores and other imperfections
- skin contaminated with toxins

EFFECTS:

- removes all impurities
- cleanses skin pores, excess sebum and toxins
- the skin becomes deeply cleansed, smooth, with narrowed pores and a beautiful appearance

MAIN ACTIVE INGREDIENTS:

ACTIVE BAMBOO CHARCOAL

Absorbs toxins, excess sebum and all impurities and narrows the pores of the skin.

IONIZED SILVER

Has an anti-inflammatory, antibacterial effects.

HYDROMANIL™ COMPLEX

Peruvian plant Tara extract with instant and long-lasting moisturizing effects.

KIWI EXTRACT

Rich source of vitamin C with strong anti-radical, firming, regenerating and smoothing effects. It stimulates the formation of collagen fibres.

OXY O₂ THERAPIS

Oxygen infusion of freshness and radiance

OXYGENATING ALGAE MASK WITH ACTIVE OXYGEN

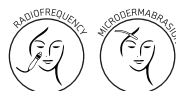

Indications:
for grey and tired skin without energy and glow

Active ingredients:
active oxygen, Sepitonic M3, coenzyme Q10, hyaluronic acid, ginseng extract

Properties:
It deeply moisturizes, smoothes the epidermis and reduces wrinkles, supporting cell renewal. Makes the skin regain its natural beauty, freshness, radiance and vitality.

volume: 200 g
number of treatments: 13
code: 53115

*Available also in 100 g and 20 g!

OXYGENATING GEL MASK WITH ACTIVE OXYGEN 3 IN 1

Indications:
for grey and tired skin without energy and glow

Active ingredients:
active oxygen, Sepitonic M3, hyaluronic acid, ginseng extract

Properties:
Increases immediate access of oxygen to the skin. Moisturizes the skin, restoring its freshness, radiance and vitality.

volume: 200 ml
number of treatments: 23
code: 53125

*Available also in 100 ml

OXYGENATING SCRUB-MICRODERMABRASION EFFECT

Indications:
for grey and tired skin without energy and glow

Active ingredients:
volcanic rock particles, papain, Sepitonic M3, coenzyme Q10, extracts: ginseng, flax, almond oil

Properties:
It allows you to instantly obtain soft, smooth and taut skin. Gently dissolves and thoroughly removes the dead, keratinized layer of epidermis, giving the effect of microdermabrasion.

volume: 200 ml
number of treatments: 23
code: 53155

*Available also in 100 ml

INDICATION:

- gray skin
- tired skin
- skin lacking energy and radiance

EFFECTS:

- increases immediate access of oxygen to the skin
- restores freshness, radiance and vitality to the skin
- improves the level of cellular energy necessary for proper metabolic processes
- improves skin structure, has anti-aging and regenerating properties

MAIN ACTIVE INGREDIENTS:

ACTIVE OXYGEN

By providing intensive oxygen supplies, it helps the skin to enhance its self-regulating mechanisms and cope better with environmental factors.

SEPI TONIC M3

Increases instantaneous access to oxygen and improves oxygenation of skin cells, improving metabolism and accelerating regeneration of skin cells. It makes the skin smooth, reducing existing wrinkles and inhibiting appearance of new ones. Additionally, it protects the skin against activity of free radicals and glycation process – skin ageing accelerators.

Q10 COENZYME

Shows rejuvenating characteristics, making tiny wrinkle lines disappear, increasing elasticity, firmness and tightness of the skin.

HYALURONIC ACID

A mucopolysaccharide that combines collagen and elastin fibres in the dermis and is able to bind from one thousand to four thousand more water than its weight and, therefore, is used as one of the most valuable moisturizing agents.

KAKADU PLUM

A powerful boost of vitamin C

PLUM SERUM

Indications:
for normal and dry skin

Active ingredients:
4 multivitamin fruit extracts: Australian kakadu plum, cherry, mango and organic goji berries, plum seed and chia seed oils, hyaluronic acid, collagen with elastin

Properties:
Provides the skin with maximum nutrition, vitality and hydration. It instantly revitalizes lifeless skin, resulting with radiant, healthy and energetic glow.

volume: 100 ml
number of treatments: 30
code: 53205

PLUM MASK

Indications:
for normal and dry skin

Active ingredients:
4 multivitamin fruit extracts: Australian kakadu plum, cherry, mango and organic goji berries, plum seed and chia seed oils, hyaluronic acid, d-panthenol

Properties:
It adds vitality and energy to the skin, minimizing the signs of aging. The product supports the skin restructuring process, instantly nourishes and elasticizes the skin.

volume: 200 ml
number of treatments: 23
code: 53185

* Available also in 100 ml!

PLUM ALGAE MASK WITH CHIA SEEDS

Indications:
for normal and dry skin

Active ingredients:
4 multivitamin fruit extracts: Australian kakadu plum, cherry, mango and organic goji berries

Properties:
The product instantly revitalizes lifeless skin, resulting with radiant, healthy and energetic glow.

volume: 200 g
number of treatments: 13
code: 53175
* Available also in 20 g!

PLUM CONCENTRATE

Indications:
for normal and dry skin

Active ingredients:
4 multivitamin fruit extracts: Australian kakadu plum, cherry, mango and organic goji berries, plum seed and chia seed oils

Properties:
Provides the skin with maximum nourishment, vitality and hydration. Intensively stimulates the synthesis of collagen and elastin, maintaining the healthy appearance of the skin for a long time.

volume: 30 ml
number of treatments: 20
code: 53195

HOME THERAPY PLUM CREAM

Indications:
for normal and dry skin

Active ingredients:
4 multivitamin fruit extracts: Australian kakadu plum, cherry, mango and organic goji berries, organic plum seed oil, chia seed oil, soybean oil, hyaluronic acid

Properties:
Provides maximum nutrition, vitality and hydration. Intensively stimulates the synthesis of collagen and elastin, helping to maintain the healthy appearance of the skin for a long time. It is intended for continued home care after the professional treatments.

volume: 50 ml
code: 53215

INDICATION:

- normal skin
- dry skin
- skin with the first signs of aging

EFFECTS:

- adds vitality and energy to the skin, minimizing the signs of aging
- instantly nourishes and elasticizes
- restores lipid balance strengthening the protective barrier and has an antioxidant effect at the same time
- the skin regains a healthy, fresh and radiant appearance

KAKADU PLUM

A powerful boost of vitamin C

A superfood that nourishes the skin from the inside

Australian Kakadu Plum is the richest natural source of vitamin C and a real treasury of antioxidants. Undeniably, it deserves to be called a super fruit - it helps to lighten discolorations, stimulates fibroblasts to produce collagen and elastin, reduces free radicals and repairs damage caused by solar radiation. The gallic and ellagic acids contained in it additionally have a strong antibacterial and anti-inflammatory effect. Its extraordinary properties allowed us to develop a maximally nourishing and vitamin-saturated line of **Kakadu Plum**, which helps to keep the skin in good condition for a long time.

Cosmetology expert
MSc Iga Bielawska

Kakadu plum serum
won the 2nd place
for the best product
in **Beauty and aesthetics**
days **PUREbeauty**

MAIN ACTIVE INGREDIENTS:

KAKADU PLUM EXTRACT

This unique fruit is known as the world's largest source of vitamin C. It increases the antioxidant defense of cells to better protect against oxidative stress. This fruit is a source of antioxidants: gallic acid, ellagic acid, as well as folic acid and iron. Kakadu plum from Australia is the largest source of vitamin C and in huge amounts - 1000-5300 mg/100 g, which is at least 50 times more than contain oranges.

CHIA SEEDS

The plant originally derives from South America. Chia seeds are commonly valued for their unique properties. They are characterized by high contents of fibre and fatty acids, omega-3 acids, polyunsaturated fats and unsaturated fats as well as mineral ingredients such as calcium, potassium, magnesium, iron and phosphorus.

CHERRY EXTRACT

A rich source of A and C vitamins, pectin and compounds with antioxidant effects. Extracts of cherries slow down your skin ageing processes and absorb UVA and UVB radiation. Vitamins and carotene also delay appearance of wrinkles.

MANGO EXTRACT

Prevents premature skin aging, restoring softness, flexibility and firmness of the skin.

GOJI EXTRACT

It contains a significant amount of polysaccharides, amino acids and vitamins, which is why it is considered as energizing and stimulating ingredient because it provides cells with the strength and energy necessary to carry out metabolic processes. Thanks to this, cells can perform their functions more easily and as a result, the entire skin looks healthier and nicer.

SECRET OF YOUTH

Diamond dust magic

FILLING AND TENSING ALGAE MASK WITH AFRICAN ROOIBOS AND LINEFILL™ COMPLEX

Indications:

for mature skin requiring firming, smoothing and improving skin elasticity

Active ingredients:

Linefill™ complex, orchid extract, brown algae *Ascophyllum Nodosum* and *Focus Vesiculosus*, African red bush - Rooibos, diamond dust

Properties:

It improves the firmness and density of the skin and eliminates imperfections caused by the passage of time. The skin is visibly smoothed and tightened with diamond dust.

volume: 200 g

number of treatments: 13

code: 52585

* Available also in 20 g!

FILLING AND TENSING MASK WITH LINEFILL™ COMPLEX

Indications:

for mature skin requiring firming, smoothing and improving skin elasticity

Active ingredients:

Linefill™ complex, sesame seeds, brown algae (*Ascophyllum Nodosum* and *Fucus Vesiculosus*), hyaluronic acid, orchid extract, olive squalane

Properties:

The preparation provides the skin with perfect hydration, smoothes imperfections and reduces micro-wrinkles by filling them. Gives the skin velvety smoothness, optimal tension and diamond shine.

volume: 200 ml

number of treatments: 23

code: 52595

FILLING AND TENSING SERUM WITH LINEFILL™ COMPLEX

Indications:

for mature skin requiring firming, smoothing and improving skin elasticity

Active ingredients:

Linefill™ complex, brown algae *Ascophyllum Nodosum* and *Focus Vesiculosus*, orchid extract, hyaluronic acid, olive squalane, diamond dust

Properties:

The effect is excellent skin hydration, visible improvement in firmness and reduction of wrinkles by filling them. The skin is taut and radiant.

volume: 100 ml

number of treatments: 30

code: 52605

FILLING AND TENSING CREAM WITH LINEFILL™ COMPLEX

Indications:

for mature skin requiring firming, smoothing and improving skin elasticity

Active ingredients:

Linefill™ complex, brown algae *Ascophyllum Nodosum* and *Focus Vesiculosus*, hyaluronic acid, orchid extract, olive squalane

Properties:

The cream restores skin density, moisturizes for a long time, reduces wrinkles by filling them, stimulates regeneration and cellular reconstruction. The result is velvety smooth, taut skin with a diamond glow.

volume: 100 ml

number of treatments: 30

code: 52635

FILLING AND TENSING CONCENTRATE WITH LINEFILL™ COMPLEX

Indications:

for mature skin requiring firming, smoothing and improving skin elasticity

Active ingredients:

Linefill™ complex, brown algae *Ascophyllum Nodosum* and *Focus Vesiculosus*, hyaluronic acid, orchid extract, olive squalane

Properties:

It provides strong hydration, smoothes wrinkles by filling them, optimally tightens the skin, making it smooth with a diamond glow.

volume: 30 ml

number of treatments: 20

code: 52625

FILLING AND TENSING EYE SERUM WITH LINEFILL™ COMPLEX

Indications:

for mature skin around the eyes that requires firming, smoothing and improving skin tension

Active ingredients:

Linefill™ complex, brown algae *Ascophyllum Nodosum* and *Focus Vesiculosus*, hyaluronic acid, orchid extract, olive squalane

Properties:

It reduces wrinkles by filling them, accelerates cell renewal, intensively moisturizes, improves the contour and condition of the skin around the eyes.

volume: 50 ml

number of treatments: 50

code: 52615

SECRET OF YOUTH

Diamond dust magic

INDICATION:

- mature skin
- skin requiring firming and smoothing of wrinkles
- skin requiring improvement of skin tension

EFFECTS:

- perfect hydration
- minimizing wrinkles by filling them
- optimally taut, smooth skin with a diamond glow

How to rebuild facial proportions?

The progressive aging process leads to the loss or displacement of facial volume and subcutaneous fat tissue. This disturbs its balance, leads to the formation of folds, also wrinkles and furrows become more visible. To restore the proper proportions of the face, we have developed line based on **Linefill™ - the Secret of Youth**. This lipo-filler fraction has the ability to increase adipocyte differentiation, which supports the natural distribution of facial volume. As a result, wrinkles and depressions in the skin are filled and the lips become fuller, resulting in a younger and more attractive appearance.

Cosmetology expert
MSc Iga Bielawska

MAIN ACTIVE INGREDIENTS:

LINEFILL™ COMPLEX

Activates lipid synthesis and optimizes reduction of wrinkles by filling them, making the skin ideally smooth.

ORCHID EXTRACT

Shows strong antioxidant, moisturizing and smoothing effects.

ASCOPHYLLUM NODOSUM AND FUCUS VESICULOSUS

Brown algae activate collagen and elastin synthesis. They make the skin firm, improving its flexibility visibly.

HYALURONIC ACID

It is a mucopolysaccharide that connects collagen and elastin fibers in the dermis.
It is one of the most valuable moisturizing ingredients.

OLIVE SQUALANE

It deeply moisturizes, oxygenates the skin and is an excellent antioxidant.

AFRICAN ROOIBOS RED BUSH EXTRACT

contains numerous valuable nutrients: magnesium, calcium, zinc, iron, potassium, sodium, antioxidants and vitamin C.
Protects the skin against premature aging. It has a visible effect of nourishing the skin and reducing wrinkles, making the face look radiant and rested.

HYDRO EVOLUTION

Extremely moisturizing pear treatment

EXTREMELY MOISTURIZING ULTRA-LIGHT CREAM WITH PEAR AND RHUBARB AQUAXTREM™ COMPLEX

Indications:
for dehydrated and damaged skin

Active ingredients:
extracts of: pear, aloe, mimosa,
AQUAXTREM™ complex from rhu-
barb roots, hyaluronic acid

Properties:
Perfectly smoothes, nourishes and
soothes. The skin regains hydration,
radiant, young and vital appearan-
ce.

volume: 100 ml
number of treatments: 30
code: 52235

EXTREMELY MOISTURIZING SERUM WITH PEAR AND RHUBARB AQUAXTREM™ COMPLEX

Indications:
for dehydrated and damaged skin

Active ingredients:
extracts of: pear, sea algae,
AQUAXTREM™ complex from rhu-
barb roots, ceramides, silk proteins,
hyaluronic acid, argan oil, shea
butter

Properties:
Effectively repairs the skin structure,
limiting water loss and achieving
deep and long-lasting moisturizing
effects.

volume: 100 ml
number of treatments: 30
code: 52215

EXTREMELY MOISTURIZING GEL MASK WITH PEAR AND RHUBARB AQUAXTREM™ COMPLEX

Indications:
for dehydrated and damaged skin

Active ingredients:
extracts of: pear, aloe, linseed,
AQUAXTREM™ complex from rhu-
barb roots, hyaluronic acid, cera-
mides

Properties:
Intensively activates and regulates
the natural hydration process of the
skin, thus deeply moisturizing it.

volume: 200 ml
number of treatments: 23
code: 52205

EXTREMELY MOISTURIZING ALGAE MASK WITH PEAR AND RHUBARB AQUAXTREM™ COMPLEX

Indications:
for dehydrated and damaged skin

Active ingredients:
pear extract, AQUAXTREM™ complex from rhubarb roots

Properties:
Stimulates the skin's natural moisturizing mechanisms,
achieving deep and long-lasting effects. It improves the
lipid barrier of the skin, protects against external factors
and prevents dehydration.

volume: 200 g
number of treatments: 13
code: 52195

*Available also in 20 g!

ENZYMATIC PEAR SCRUB FOR FACE WITH VOLCANIC LAVA 2 IN 1

Indications:
for all skin types, **except for acne skin and skin with
broken capillaries**

Active ingredients:
papain, volcanic lava, pear extract, AQUAXTREM™ com-
plex from rhubarb roots

Properties:
Pear peeling 2 in 1 combines the properties of enzymatic
and granular peeling. It gently dissolves the dead,
calloused layer of the epidermis, while the volcanic lava
thoroughly removes it, leaving the skin soft and smooth.

volume: 200 ml
number of treatments: 30
code: 52185

EXTREMELY MOISTURIZING CONCENTRATE WITH PEAR AND RHUBARB AQUAXTREM™ COMPLEX

Indications:
for dehydrated and damaged skin

Active ingredients:
pear extract, AQUAXTREM™ complex, collagen, elastin, hyaluronic acid, aloe extract and macadamia oil

Properties:
Intensively activates and regulates the skin's natural hydration process, thus deeply moisturizing it. Perfectly
smoothes and nourishes the skin, leaving a feeling of comfort.

volume: 30 ml
number of treatments: 20
code: 52225

HYDRO EVOLUTION

Extremely moisturizing pear treatment

HOME THERAPIS EXTREMELY MOISTURIZING CREAM WITH PEAR AND RHUBARB AQUAXTREM™ COMPLEX

Indications:
for dehydrated and damaged skin

Active ingredients:
extracts of: pear, aloe, mimosa, AQUAXTREM™ complex from rhubarb roots, hyaluronic acid

Properties:
Stimulates the skin's natural moisturizing mechanisms, achieving deep and long-lasting effects. The skin regains a radiant, young and vital appearance. It is intended for continued home care after the professional treatments.

volume: 50 ml
code: 52245

INDICATION:

- skin requiring moisturization
- dry skin
- skin after excessive sun exposure

EFFECTS:

- intensively activates and regulates the natural skin hydration process
- strengthens the mechanisms and elements of the epidermal barrier, ensuring long-lasting hydration and a radiant, young and vital appearance
- nourishes, soothes and softens

Can you provide your skin with ultra-hydration?

The revolutionary solutions used in the Hydro Evolution line use two mechanisms responsible for deep skin hydration. The first is to retain water in the epidermis and reduce TEWL by providing intensely moisturizing substances. Vegetable oils, emollients, natural extracts and hyaluronic acid increase water resources in the skin and support the action of NMF and the hydrolipid barrier. Thus, they improve the elasticity, tension and resistance of the skin to external factors. The second mechanism is based on the unique properties of the **AQUAXTREM™** complex. It has the ability to activate PPAR γ receptors in keratinocytes, thanks to which it stimulates internal processes responsible for skin hydration. It helps regulate the process of exfoliation of the epidermis, prevents dehydration and unpleasant symptoms associated with it, such as dryness, tightness, burning, redness, the appearance of wrinkles and skin hypersensitivity.

Cosmetology expert
MSc Iga Bielawska

MAIN ACTIVE INGREDIENTS:

PEAR EXTRACT

A rich source of A, C and B group vitamins, fruit acids (malic and citric acids), polyphenols with antioxidant properties and minerals. It provides smoothing (removes dead skin cells gently), soothing, moisturizing and revitalizing effects. It makes the skin firm, slows down skin ageing processes and protects it against harmful UV radiation.

AQUAXTREM™ COMPLEX

Obtained from rhubarb roots (*Rheum raphaniticum*). It stimulates natural skin moisturizing mechanisms, providing deep and long-term hydration. AQUAXTREM™ improves the lipid barrier of the skin, protecting the body against environmental factors and preventing your skin from dehydration. It improves the barrier function of your skin, limiting loss of water and maintaining better moisture.

ALOE EXTRACT

Provides optimum moisture and flexibility of the skin, improves blood circulation by stimulation of cells. It also nourishes the skin and provides antibacterial effects. It is rich in A, B, C, E vitamins and minerals.

EXPRESS LIFTING

Lifting effect without a scalpel

INTENSIVELY FIRMING CREAM WITH TENS'UP™ COMPLEX

Indications:
for mature skin requiring an immediate lifting

Active ingredients:
TENS'UP™ complex, hyaluronic acid, collagen, argan oil, shea butter

Properties:
Combines smoothing properties, reducing the visibility of wrinkles and expression lines, with anti-aging activity. Provides the skin with perfect, velvety smoothness and hydration.

volume: 100 ml
number of treatments: 30
code: 51915

INTENSIVE FIRMING SERUM WITH TENS'UP™ COMPLEX

Indications:
for mature skin requiring an immediate lifting

Active ingredients:
TENS'UP™ complex, collagen, hyaluronic acid, argan oil, shea butter

Properties:
Provides an intense lifting and tightening effect. It combines a double smoothing effect, reducing the visibility of wrinkles and expression lines, with anti-aging activity.

volume: 100 ml
number of treatments: 30
code: 51785

INTENSIVE FIRMING MASK WITH TENS'UP™ COMPLEX

Indications:
for mature skin requiring an immediate lifting

Active ingredients:
TENS'UP™ complex, silk proteins, hyaluronic acid, ceramides, argan and macadamia oils

Properties:
Increases collagen synthesis, stimulates cell renewal and improves the condition of the skin. Provides the skin with perfect and velvety smoothness.

volume: 200 ml
number of treatments: 23
code: 51725

INTENSIVE FIRMING ALGAE MASK WITH TENS'UP™ COMPLEX

Indications:
for mature skin requiring an immediate lifting

Active ingredients:
TENS'UP™ complex, hyaluronic acid, Hydromanil™ complex

Properties:
Instantly tightening algae mask with a visible lifting and tightening effect. Stimulates cellular energy and improves the condition of the skin.

volume: 200 g
number of treatments: 13
code: 51675

* Available also in 100 g and 20 g!

BRIGHTENING AND WRINKLE FILLING SERUM UNDER EYES WITH TENS'UP™ COMPLEX

Indications:
for mature skin around the eyes requiring intensive smoothing

Active ingredients:
TENS'UP™ complex, hyaluronic acid, avocado extract, collagen, argan oil, shea butter, sunflower oil

Properties:
Velvety serum providing excellent action on all signs of skin aging. The skin is firmer, moisturized, elastic and radiant.

volume: 50 ml
number of treatments: 50
code: 51825

INTENSIVELY TENSING AND SMOOTHING CONCENTRATE WITH TENS'UP™ COMPLEX

Indications:
for mature skin requiring an immediate lifting

Active ingredients:
TENS'UP™ complex, hyaluronic acid, avocado extract, silk proteins, ceramides, shea butter, argan oil

Properties:
Intensive preparation with a highly concentrated, breakthrough TENS'UP™ complex ensuring perfect smoothing and tightening.

volume: 30 ml
number of treatments: 20
code: 51865

EXPRESS LIFTING

Lifting effect without a scalpel

INDICATION:

- mature skin
- skin requiring immediate lifting

EFFECTS:

- visibly smoothes, reducing the visibility of wrinkles and expression lines
- stimulates cell renewal
- improves the condition of the skin

Immediate improvement of the face oval

Age does not always go hand in hand with the appearance and condition of our skin. It is believed that after the age of 25, the skin begins to lose its valuable "support" in the form of collagen and elastin fibers, which gradually weaken and degrade. Intensive lifestyle is conducive to accelerated aging of the skin, which becomes flaccid and less elastic. The visible loss of firmness in the form of a falling oval of the face requires a strong dose of active ingredients. The **Express Lifting** line was created for the needs of demanding skin, that uses the full spectrum of the Tens'Up™ complex. It brings immediate improvement of facial contours and long-lasting effects in the form of firming, moisturizing and stimulating fibroblasts to produce collagen and elastin in the skin.

Cosmetology expert
MSc Iga Bielawska

MAIN ACTIVE INGREDIENTS:

TENS'UP™ COMPLEX

A breakthrough active ingredient with instant and long-term lifting effects as shown in in-vivo tests. It combines skin surface tightening effects and anti-ageing activity, which has been confirmed by growth of collagen synthesis and anti-wrinkle effects.

HYALURONIC ACID

It is a mucopolysaccharide that connects collagen and elastin fibers in the dermis. It is one of the most valuable moisturizing ingredients.

SILK PROTEINS

Make the skin soft and smooth, showing strong lifting and moisturizing activity.

CERAMIDES

Provide moisturizing, protective and firming effects.

AVOCADO EXTRACT

Nourishes and strengthens the skin.

ARGAN OIL

An elixir of youth with strong skin regenerating properties. It protects the skin against premature appearance of wrinkles, soothes symptoms of acne vulgaris, allergy and psoriasis.

SUNFLOWER OIL

Has anti-inflammatory and antioxidant properties. It strengthens the natural protective barrier of the skin, softening and regenerating the epidermis.

VITAMIN BALANCE

Nourishing and moisturizing power of grapes

CREAM WITH VITAMIN C AND WHITE GRAPES

Indications:
for sensitive skin, with broken capillaries, lacking radiance

Active ingredients:
vitamin C, extracts of: white grapes, aloe, silk protein, ceramides, argan oil, shea butter

Properties:
The cream strengthens blood vessels, smoothes and refreshes the skin.

volume: 100 ml
number of treatments: 30
code: 51465

SERUM WITH VITAMIN C AND WHITE GRAPES

Indications:
for sensitive skin, with broken capillaries, lacking radiance

Active ingredients:
vitamin C, extracts of: white grapes, aloe, sea algae, ginkgo biloba, hyaluronic acid

Properties:
Serum with a delicate consistency. It smoothes the skin, refreshes, improves blood circulation and the condition of blood vessels.

volume: 100 ml
number of treatments: 30
code: 51395

ALGAE MASK WITH VITAMIN C AND WHITE GRAPES

Indications:
for sensitive skin, with broken capillaries, lacking radiance

Active ingredients:
alginate (brown algae extract Laminaria Saccharina), vitamin C, white grape extract

Properties:
Vitamin algae mask with a broad spectrum of action: smoothes, gently brightens skin tone and epidermal discolorations, refreshes and improves the condition of blood vessels.

volume: 200 g
number of treatments: 13
code: 51295

FACE MASK WITH VITAMIN C AND WHITE GRAPES

Indications:
for sensitive skin, with broken capillaries, lacking radiance

Active ingredients:
vitamin C, amino acids, white grape and passion fruit extracts

Properties:
It improves blood supply and the condition of blood vessels. Intensively moisturizes, nourishes and gives the skin a radiant glow.

volume: 200 ml
number of treatments: 23
code: 51335

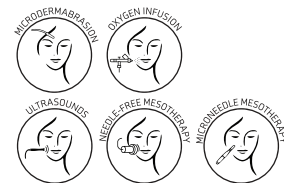

CONCENTRATE WITH VITAMIN C AND WHITE GRAPES

Indications:
for sensitive skin, with broken capillaries, lacking radiance

Active ingredients:
vitamin C, white grape extract, rutin, hyaluronic acid, ceramides, amino acids

Properties:
Provides the skin with an immediate, energizing boost of vitality. It gently brightens the skin tone and epidermal discolorations, refreshes and improves the condition of blood vessels.

volume: 30 ml
number of treatments: 20
code: 52035

VITAMIN BALANCE

Nourishing and moisturizing power of grapes

INDICATION:

- gray skin
- dull skin
- sensitive skin that requires nourishment

EFFECTS:

- provides the skin with an energizing boost of vitality
- optimally moisturizes and smoothes
- leaves the skin well nourished
- reduces signs of fatigue
- improves the condition and makes the skin radiant

Do you know that...

White grapes are the source of flavonoids. The **flavonoids** are natural antioxidants preventing the formation of free radicals. The free radicals destroy hydrolipid layer of the epidermis and accelerate skin's aging process by damaging the collagen and elastin fibres of the dermis. White grapes in combination with vitamin C strengthen the walls of blood vessels and have antioxidant effects.

MAIN ACTIVE INGREDIENTS:

VITAMIN C

It is an excellent exfoliator, and also stimulates collagen and elastin synthesis, brightens discolorations, is a natural antioxidant, neutralizes free radicals, delaying the skin aging process.

WHITE GRAPES EXTRACT

Has strong moisturizing, nourishing and firming effects that strengthen the protective barrier of the skin. Thanks to the presence of flavonoids, C and E vitamin, it slows down the process of aging and makes the skin radiant.

ARGAN OIL

An elixir of youth with strong skin regenerating effects. It protects the skin against premature appearance of wrinkles, soothes symptoms of acne vulgaris, allergy and psoriasis.

SHEA BUTTER

Nourishing butter rich in vitamins A, D, E and F, which softens and elasticizes the epidermis. Covers the skin with a natural film that protects against drying out. It helps to rebuild the 'intercellular cement' of the stratum corneum, thanks to which it limits the impact of harmful external factors. It has nourishing and regenerating properties and protects against UV radiation

COLLAGEN

Maintains a high level of skin moisture, makes micro lines smooth, firms and tightens the skin.

ELASTIN

Increases flexibility and elasticity of the skin, moisturizing it and delaying aging processes.

ACNE-STOP

Deep cleansing of acne prone, oily and mixed skin

CLEANSING ANTIBACTERIAL TONER WITH GREEN TEA

Indications:
for acne, oily and mixed skin

Active ingredients:
extracts from: green tea, kiwi, aloe vera, sea algae

Properties:
Tonic with strong anti-inflammatory and antioxidant effects. Refreshes, moisturizes and soothes irritations.

volume: 500 ml
number of treatments: 60
code: 50025

* Available also in 300 ml!

CLEANSING ANTIBACTERIAL LOTION WITH GREEN TEA

Indications:
for acne, oily and mixed skin

Active ingredients:
extracts from: green tea, kiwi, aloe vera, sea algae

Properties:
The preparation perfectly removes makeup and other impurities, cleanses and nourishes. The product has a strong bacteriostatic and cleansing effect.

volume: 500 ml
number of treatments: 60
code: 50055

* Available also in 300 ml!

ALGAE MASK FOR ACNE SKIN WITH BAMBOO, GREEN TEA AND DEAD SEA BLACK MUD

Indications:
for acne, oily and mixed skin

Active ingredients:
extracts from: green tea, sea algae, bamboo, black mud from the Dead Sea

Properties:
The mask has a broad spectrum of cleansing and smoothing properties. It has antibacterial properties and tightens enlarged skin pores.

volume: 200 g
number of treatments: 13
code: 50185
* Available also in 100 g and 20 g!

CLEANSING MASK WITH BLACK MUD FROM THE DEAD SEA AND GREEN TEA

Indications:
for acne, oily and mixed skin

Active ingredients:
extracts from: green tea, aloe vera, mimosa, black mud from the Dead Sea

Properties:
Deeply cleanses skin pores, absorbs impurities and toxins, balances the natural content of minerals in the skin. Smooths, narrows enlarged pores, improves microcirculation, soothes inflammation.

volume: 200 ml
number of treatments: 23
code: 50415

MATTIFYING FACE CREAM

Indications:
for acne, oily and mixed skin

Active ingredients:
extracts from: irys root, yeast, sea algae, mimosa, aloe vera, hyaluronic acid

Properties:
Regulates the functioning of the sebaceous glands and limits the secretion of sebum, thus effectively reducing the undesirable effect of skin shining.

volume: 100 ml
number of treatments: 30
code: 50735

CONCENTRATE FOR ACNE PRONE SKIN

Indications:
for acne, oily and mixed skin

Active ingredients:
extracts from: green tea, bamboo, thyme, Dead Sea minerals, lactic acid

Properties:
Highly concentrated preparation with a strong bacteriostatic effect. The product regulates sebum secretion. It leaves the skin perfectly cleansed and smooth.

volume: 30 ml
number of treatments: 20
code: 52015

ACNE-STOP

Deep cleansing of acne prone, oily and mixed skin

TIGHTENING AND SMOOTHING MASK WITH CLAY AND ZINC

Indications:
for oily skin with widened pores, mixed skin,
after blackheads removal treatment

Active ingredients:
zinc, white clay, extracts from: arnica, mimosa

Properties:
The mask intensively tightens enlarged pores. It soothes irritations and calms the skin, especially after cleansing and microdermabrasion.

volume: 200 ml
number of treatments: 30
code: 50375

HOME THERAPY LIGHT NORMALIZING AND ANTI-ACNE CREAM WITH GREEN TEA

Indications:
for acne, oily and mixed skin

Active ingredients:
extracts from: green tea, bamboo, sea algae, mimosa

Properties:
Reduces sebum secretion, narrows enlarged pores, soothes irritations and mattifies. The product leaves the skin smooth with a fresh, healthy color. It is intended for continued home care after the professional treatments.

volume: 50 ml
code: 51125

INDICATION:

- acne-prone skin
- oily skin
- combination skin
- skin with enlarged pores

EFFECTS:

- cleans deeply and tightens pores
- replenishes minerals in the skin, making it smooth and refreshed
- regulates sebum production
- regulates undesired skin shining

Painless deep skin cleansing

Cleansing preparations from the **Acne-Stop** line ensure a comfortable and painless deep cleansing procedure, while offering high therapeutic effects. Just use an antibacterial tonic with green tea during cavitation peeling to thoroughly cleanse the skin pores of impurities, excess sebum and dead skin. At the end of the treatment, it is ideal to push active substances deep into the skin. For this procedure combine the properties of the concentrate with ultrasound gel and use sonophoresis or needle-free mesotherapy. It is worth extending the procedure with the beneficial properties of a mask with black mud from the Dead Sea, which not only absorbs toxins but also soothes inflammation.

Regional manager - trainer
Cosmetology expert
MSc Katarzyna Skoczek

MAIN ACTIVE INGREDIENTS:

GREEN TEA EXTRACT

Provides bacteriostatic, cleansing and anti-inflammatory effects.

SEA ALGAE EXTRACT

Improves blood circulation, soothes irritations and strengthens skin's protective barrier.

KIWI EXTRACT

A rich source of vitamin C with strong antiradical, firming and smoothing effects.
Stimulates regeneration of collagen fibers.

ALOE EXTRACT

Provides optimum hydration and skin firming, improves blood circulation, stimulates cellular activity and has antibacterial effects. Rich in vitamins A, B, C and E as well as minerals.

COUPEROSE-STOP

Bandage for capillary problems

BARBADOS CHERRY TONER FOR CAPILLARY SKIN

Indications:
for sensitive skin with widened capillaries

Active ingredients:
vitamin C, acerola and wild rose extracts

Properties:
Strengthens and seals the walls of blood vessels protecting them from breaking. Intensively moisturizes, smoothes and elasticizes the skin.

volume: 500 ml
number of treatments: 60
code: 53715

* Available also in 300 ml!

ALGAE MASK WITH WILD ROSE AND VITAMIN C FOR SKIN WITH CAPILLARY PROBLEMS

Indications:
for sensitive skin with widened capillaries

Active ingredients:
vitamin C, wild rose and arnica extracts

Properties:
Strengthens the walls of blood vessels and protects them against fracture, intensively moisturizes and makes them elastic.

volume: 200 g
number of treatments: 13
code: 50165

* Available also in 100 g and 20 g!

MASK FOR SKIN WITH CAPILLARY PROBLEMS

Indications:
for skin with dilated capillaries

Active ingredients:
vitamin C, extracts: kiwi, lemon, wild rose and ginkgo biloba

Properties:
The preparation perfectly combines the problem of vascular skin with intense hydration and nourishment.

volume: 200 ml
number of treatments: 23
code: 50465

SERUM FOR SKIN WITH CAPILLARY PROBLEMS

Indications:
for sensitive skin with dilated capillaries

Active ingredients:
vitamin C, ceramides, silk proteins, ginkgo biloba and sea algae extracts

Properties:
A preparation with properties that strengthen the walls of blood vessels. It moisturizes, smoothes the skin and has an immunostimulating effect.

volume: 100 ml
number of treatments: 30
code: 50555

VITAMIN CREAM FOR SENSITIVE SKIN WITH DILATED CAPILLARIES

Indications:
for sensitive skin with dilated capillaries

Active ingredients:
vitamin C, ginkgo biloba extract, silk proteins, ceramides, hyaluronic acid

Properties:
Strengthens the walls of blood vessels, stimulates the skin's defense processes, soothes irritations and optimally moisturizes.

volume: 100 ml
number of treatments: 30
code: 50765

ULTRASOUND GEL FOR CAPILLARY SKIN

Indications:
for sensitive skin with widened capillaries

Active ingredients:
vitamin C, hyaluronic acid, extracts: grapefruit, wild rose, ginkgo biloba, arnica

Properties:
Constricting blood vessel walls with excellent slip: regenerates epidermal cells, strengthens and protects blood vessels against fracture. Designed for iontophoresis and ultrasound.

volume: 200 ml
number of treatments: 23
code: 50875

CONCENTRATE FOR THE SKIN WITH DILATED CAPILLARIES

Indications:
for sensitive skin with dilated capillaries

Active ingredients:
vitamin C, extracts: sea algae, lemon, grapefruit, ginkgo biloba, macadamia oil

Properties:
Visibly strengthens the walls of blood vessels, improves elasticity and soothes irritations.

volume: 30 ml
number of treatments: 20
code: 51995

COUPEROSE-STOP

Bandage for capillary problems

HOME THERAPIS FIRMING CREAM WITH VITAMIN C

Indications:
for sensitive skin with dilated capillaries

Active ingredients:
vitamin C, extracts: grapefruit, ginkgo biloba, lecithin, argan oil, shea butter

Properties:
Stimulates the skin's protective processes, soothes irritations, strengthens the walls of blood vessels. The product leaves the skin moisturized, elastic and smooth.
It is intended for continued home care after the professional treatments.

volume: 50 ml
code: 51115

INDICATION:

- sensitive skin
- skin with dilated blood vessels
- skin prone to irritation and redness

EFFECTS:

- strengthened and constricted blood vessels
- smoothed and elastic skin
- soothes irritations and redness

OUR ADVICE

Couperose skin with rosacea needs a very special attention. Our range of products from the **Couperose-Stop line**, rich in vitamin C, arnica and wild rose extracts is the best choice for this type of skin. Cavitation peeling and smoothing Barbados Cherry toner are recommended for couperose skin. In case of couperose skin, dead skin cells and black heads have to be removed as well. Cavitation peeling is an ideal solution, as it does not affect couperose lesions and it is a perfect introduction for further treatments. In case of **rosacea**, everything depends on the progress of the disease. Dermatological treatment combined with a proper cosmetological care can accelerate the healing process and help to maintain better skin condition. For couperose skin and rosacea healed skin mandelic or ascorbic acids treatments are recommended. The treatments, however, should start with lower concentrations and shorter application time due to reactivity of capillaries.

MAIN ACTIVE INGREDIENTS:

VITAMIN C

It stimulates the synthesis of collagen and elastin, lightens discolorations, is a natural antioxidant, neutralizes free radicals delaying the skin aging process.

KIWI EXTRACT

A rich source of vitamin C with strong anti-radical, firming, regenerating and smoothing properties. Stimulates the formation of collagen fibers.

LEMON EXTRACT

It has antibacterial and antiseptic properties. Perfectly lightens epidermal discolorations, cleanses and refreshes the skin. Tightens enlarged pores and smoothes micro-wrinkles.

WILD ROSE EXTRACT

Nourishes and regenerates skin cells, supports collagen synthesis. It moisturizes and protects the skin against moisture loss, improves its tension and smoothes micro-wrinkles.

GINGKO BILOBA EXTRACT

It improves blood supply to the skin, strengthens blood vessels, increases skin elasticity and firmness.

HYDRO BALANCE

Intensive and long-term hydration

MOISTURIZING TONER WITH SEA ALGAE

Indications:
for all skin types

Active ingredients:
extracts of: sea algae, aloe, mimosa

Properties:
The product is perfectly absorbed, leaving the skin feeling deeply moisturized, refreshed and smooth.

volume: 500 ml
number of treatments: 60
code: 50015

* Available also in 300 ml!

MOISTURIZING LOTION WITH SEA ALGAE

Indications:
for all skin types

Active ingredients:
extracts of: sea algae, aloe, avocado

Properties:
Effectively removes makeup and other impurities while moisturizing the skin.

volume: 500 ml
number of treatments: 60
code: 50045

* Available also in 300 ml!

ENZYMATIC SCRUB WITH BIOENZYMES AND SEA ALGAE

Indications:
for all skin types, especially dry, sensitive skin, with dilated capillaries

Active ingredients:
papain, AHA acid complex (lactic acid, tartaric acid, malic acid), extracts of: sea algae, grapefruit, green tea, lemon, aloe, ginkgo biloba, echinacea

Properties:
A gentle preparation intended for cleansing the skin without mechanical exfoliation. The skin regains its natural glow and healthy color, becomes smoother and more elastic and absorbs active substances contained in cosmetics more easily.

volume: 100 ml
number of treatments: 20
code: 50085

OXYGENATING AND MOISTURIZING FACE CREAM

Indications:
for all skin types that need moisturization

Active ingredients:
hyaluronic acid, extracts of: sea algae, aloe, silk protein

Properties:
Maintains deep and long-lasting skin hydration. Protects against premature appearance of wrinkles.

volume: 100 ml
number of treatments: 30
code: 50745

INTENSIVELY MOISTURIZING MASK WITH DEAD SEA MINERALS AND HYALURONIC ACID

Indications:
for dry skin

Active ingredients:
minerals from the Dead Sea, hyaluronic acid, collagen, elastin, silk proteins, sea algae extract

Properties:
Deeply and long-lastingly moisturizes. Effectively nourishes and leaves the skin glowing.

volume: 200 ml
number of treatments: 23
code: 50435

INTENSIVELY MOISTURIZING ULTRASOUND GEL

Indications:
for all skin types, particularly dry skin which needs strong moisturization

Active ingredients:
hyaluronic acid, ceramides, panthenol

Properties:
Intensely moisturizing gel with excellent glide. Designed for iontophoresis and ultrasound.

volume: 200 ml
number of treatments: 23
code: 50855

HYDRO BALANCE

Intensive and long-term hydration

HOME THERAPY INTENSIVELY MOISTURIZING CREAM WITH HYALURONIC ACID

Indications:
for dry, sensitive skin, requiring intense hydration

Active ingredients:
low and high molecular weight hyaluronic acid, extracts of: sea algae, wheat germ, aloe, silk protein, Moroccan argan oil, shea butter

Properties:
The product instantly and long-lastingly moisturizes the skin by binding water and supporting collagen and elastin fibers. It makes the skin velvety smooth with a luminous color. It is intended for continued home care after the professional treatments.

volume: 50 ml
code: 51105

INDICATION:

- skin requiring moisturization
- dry skin
- skin with dilated capillaries

EFFECTS:

- intense hydration
- effective nutrition
- glowing skin

Moisturization and hydration

The appropriate level of skin hydration ensures its optimal firmness and elasticity. Without it, it becomes rough, flaccid and more susceptible to wrinkles. Its hydration requires hygroscopic ingredients present in the **Hydro Balance** line, such as hyaluronic acid, which binds water molecules in the deep layers of the skin. Addition of ingredients like collagen, elastin, silk proteins and argan oil prevent the evaporation of water from the epidermis, creating a barrier on its surface that protects against drying.

Cosmetology expert
MSc Iga Bielawska

MAIN ACTIVE INGREDIENTS:

DEAD SEA MINERALS

Characterized by an ability to penetrate the skin pores deeply and cleanse them, stimulate cellular metabolism, activate natural functions of the skin, supporting the ability to excrete toxic substances.

HYALURONIC ACID

It is a mucopolysaccharide that connects collagen and elastin fibers in the dermis.
It is one of the most valuable moisturizing ingredients.

COLLAGEN

Maintains a high level of skin hydration, smoothes fine lines, firms and tightens the skin.

ELASTIN

Increases flexibility and elasticity of the skin, moisturizing it and delaying aging processes.

SILK PROTEINS

Make the skin soft and smooth, showing strong lifting and moisturizing activity.

MARINE ALGAE EXTRACT

Improves blood circulation, soothes irritations and strengthens the skin's protective barrier.
Intensively moisturizes, restores skin firmness and elasticity.

EXFOLIATION

Year-round acids

AML COMPLEX 30% AZELAIC, MANDELIC, LACTIC ACID

Indications:
for acne, atopic skin, with discolorations, prone to erythema, rosacea, psoriatic skin and prone to inflammation of hair follicles

Active ingredients:
30% exfoliating complex with pH 2.0 composed of azelaic, mandelic and lactic acids

Properties:
It has antibacterial, anti-comedogenic and anti-inflammatory properties. Stimulates the process of skin cell renewal and regulates sebum secretion.

volume: 30 ml
number of treatments: 20
code: 53305

AZELAIC THERAPIS 30 % AZELAIC ACID

Indications:
for acne, atopic skin, with discolorations, prone to erythema, rosacea, psoriatic skin and prone to inflammation of hair follicles

Active ingredients:
azelaic acid

Properties:
A delicate and at the same time extremely effective preparation with a pH of 2.25. It has antibacterial, anti-blackhead and anti-inflammatory properties. It can be used in rosacea - it reduces the number of papules and pustules while reducing skin erythema.

volume: 30 ml
number of treatments: 20
code: 53295

FERULIC THERAPIS 40% FERULIC ACID

Indications:
for mature, dry skin, lacking firmness and elasticity, gray, tired, with discolorations, with symptoms of acne vulgaris and acne scars

Active ingredients:
ferulic acid

Properties:
Preparation with pH 1.9. It has strong antioxidant properties, prevents skin aging processes, improves the condition and color of the skin, protects against photoaging and stimulates the skin's defense mechanisms.

volume: 30 ml
number of treatments: 20
code: 53315

MANDELIC THERAPIS 40 % MANDELIC ACID

Indications:
for oily, seborrheic and acne skin

Active ingredients:
mandelic acid

Properties:
It has a strong antibacterial effect: soothes skin inflammation, reduces skin lesions, including acne.

volume: 30 ml
number of treatments: 20
code: 52475

MAIN ACTIVE INGREDIENTS:

LACTIC ACID

It affects the hydration of the skin, maintaining the proper level of moisture in the epidermis.
Thanks to this action the skin is soft, smooth and radiant.

FERULIC ACID

It is a strong antioxidant. Stimulates the synthesis of elastin and collagen fibers. Ferulic acid has anti-inflammatory properties and reduces erythema and redness. The product prevents the formation of discolorations and reduces existing ones. Optimally moisturizes the skin.

AZELAIC ACID

It has anti-inflammatory and antibacterial properties. Reduces erythema in rosacea and brightens discolorations.

ALMOND ACID

It helps stimulate collagen in the skin, making it firmer and more elastic. The product has a strong refreshing effect.
Mandelic acid visibly improves skin tone, brightens it, regulates seborrhea and helps fight acne.

EXFOLIATION

Seasonal acids (spring, autumn, winter, without strong sunlight)

GLYCO TERAPIS 35% AND 50 % GLYCOLIC ACID

Indications:
for mature skin with discolorations, oily skin, seborrheic skin, acne skin with blackheads and lumps, with acne scars

Active ingredients:
glycolic acid

Properties:
The exfoliating preparation with pH 1.5 has a wide spectrum of action: exfoliates stratum corneum, smoothes acne scars, supports skin renewal and regeneration of the dermis.

volume: 30 ml
number of treatments: 20
code: 52455 - 35%
code: 53285 - 50%

ASCORBIC TERAPIS 40% ASCORBIC ACID NEW FORMULA

Indications:
for all skin types

Active ingredients:
ascorbic and tartaric acids

Properties:
Exfoliates dead skin cells, stimulates regeneration and renewal processes. The product gently lightens discolorations, evens out the skin tone, moisturizes and optimally increases skin tension. The combination with tartaric acid gives a perfect smoothing effect.

volume: 30 ml
number of treatments: 20
code: 54075

ACID EXFOLIATION MIX PHYTIC + PYRUVIC + LACTIC + FERULIC 40%

Indications:
for skin with signs of aging, discoloration, dilated capillaries as well as for oily, acne-prone skin with enlarged pores

Active ingredients:
acids: phytic, pyruvic, lactic, ferulic

Properties:
Innovative combination of four acids with a pH of 1.4. The preparation intensively exfoliates the stratum corneum, has anti-aging properties, shrinks dilated capillaries and lightens discolorations. It closes enlarged skin pores and has a bacteriostatic effect.

volume: 50 ml
number of treatments: 15-25
code: 53635

EXFOLIATION ACID MIX LACTOBIONIC, PYRUVIC, LACTIC, AZELAIC 40%

Indications:
for skin with signs of aging, loss of firmness, uneven color and tendency to acne lesions

Active ingredients:
acids: lactobionic, pyruvic, lactic, azelaic

Properties:
The preparation is a mixture of four carefully selected acids with a pH of 1.4. The intense action of the acid exfoliates the stratum corneum, smoothes wrinkles, lightens discolorations and has anti-inflammatory properties.

volume: 50 ml
number of treatments: 15-25
code: 53645

MAIN ACTIVE INGREDIENTS:

PYRUVIC ACID

Cleanses and reduces seborrhea, eliminates blackheads, accelerates the healing of inflammation.

LACTOBIONIC ACID

It has a strong soothing and anti-inflammatory effect. Smoothes, elasticizes and softens the epidermis. Reduces the visibility of dilated capillaries and the tendency to redden.

GLYCOLIC ACID

Of all AHA acids, it is the most active, so it easily and deeply penetrates the skin.

ASCORBIC ACID (Vitamin C)

It is an excellent exfoliator and also stimulates the synthesis of collagen and elastin, lightens discolorations. Ascorbic acid is a natural antioxidant and neutralizes free radicals.

PHYTIC ACID

It prevents discoloration and reduces existing ones, brightens and whitens the skin and has a gently exfoliating effect. Regulates sebum secretion and moisturizes. It makes the skin more smooth, elastic and firm.

AFTER EXFOLIATION PRODUCTS

ACID NEUTRALISING GEL (COOLING)

Indications:
for all skin types

Active ingredients:
extracts of: mimosa, water lily

Properties:
The preparation is intended to neutralize (interrupt) the action of acids. Thanks to its active ingredients, it has soothing, anti-swelling and cooling properties.

volume: 200 ml
number of treatments: 30
code: 50825

SOOTHING MASK AFTER ACID TREATMENT

Indications:
for all skin types

Active ingredients:
kaolin, extracts of: mimosa, arnica

Properties:
The mask has a soothing effect after an exfoliation treatment. It relaxes, soothes, reduces redness and gently closes skin pores.

volume: 200 ml
number of treatments: 30-35
code: 50835

DERMASOFT INTENSELY SOOTHING GEL AFTER SKIN IRRITATING AESTHETIC MEDICINE AND COSMETIC TREATMENTS

Indications:
for sensitive skin irritated after aesthetic medicine and cosmetic treatments such as microdermabrasion, mesotherapy, electrocoagulation and radio waves

Active ingredients:
ionized silver, dermasooth™ complex (Asian basil, milk thistle, Enteromorpha compressa algae), water lily extract, arnica, d-panthenol, Hydromanil™ complex, hyaluronic acid

Properties:
A natural, soothing gel designed to soothe the processes that cause skin irritation. It reduces the pro-inflammatory effect on blood vessels, reduces skin redness and accelerates the regeneration of the damaged area. Gently cools, bringing immediate relief.

volume: 200 ml
number of treatments: 30
code: 53245
*Available also in 50 ml!

Extensive use of DermoSoft

DermoSoft has such a wide spectrum of activity that it is not only perfect for the regeneration period but also for skin healing process after tattooing. The active ingredients it contains rebuild damaged epidermis, soothe and reduce irritation. It is also antibacterial and aseptic.

MEN TERAPIS

Multidirectional effect on men's skin

MOISTURIZING FACE SERUM FOR MEN

Indications:
for mature skin that needs smoothing and hydration

Active ingredients:
extracts of: baobab fruit pulp, olives, flax seeds, mimosa, sea algae, Dead Sea minerals, low and high molecular weight hyaluronic acid

Properties:
It provides multidirectional effects on the skin - deeply and long-lastingly moisturizes, reduces fine wrinkles, improves skin tension, soothes and calms irritations.

volume: 100 ml
number of treatments: 30
code: 51385

HOME TERAPIS SMOOTHING CREAM FOR MEN WITH DEAD SEA MINERALS

Indications:
for mature skin that needs smoothing and hydration

Active ingredients:
extracts of: mimosa, licorice, lotus, flax seeds, baobab oil, hyaluronic acid, Dead Sea minerals

Properties:
It comprehensively regenerates, stimulates cell renewal and smoothes micro-wrinkles. Moisturizes, soothes and calms irritations. It is intended for continued home care after the professional treatments.

volume: 50 ml
code: 51565

INDICATION:

- mature skin
- skin requiring smoothing and moisturizing

EFFECTS:

- improves skin firmness and elasticity
- optimally moisturizes, smoothes and soothes irritations

MAIN ACTIVE INGREDIENTS:

DEAD SEA MINERALS

Characterized by an ability to penetrate skin pores deeply and cleanse them, stimulate cellular metabolism, activate natural functions of the skin, supporting the ability to excrete toxic substances. The minerals soothe, strengthen and revitalize your skin, improving the dynamics of subcutaneous circulation and making the skin better oxygenated and nourished.

OLIVE EXTRACT

Has extraordinary regenerating effects, soothes and smoothes the skin and provides anti-inflammatory effects. It contains strong antioxidants that protect the skin naturally against harmful free radicals.

HYALURONIC ACID

It is a mucopolysaccharide that connects collagen and elastin fibers in the dermis. It is one of the most valuable moisturizing ingredients.

BAOBAB OIL

It is very rich in vitamins A, C, E, F and necessary unsaturated acids. It has strong anti-inflammatory, moisturizing, nourishing effects, facilitates the regeneration of the epidermis, adds shine to the skin and increases skin elasticity.

PINA COLADA BODY ANTYCELLULIT

Effective reduction of cellulite

TROPICAL CREAM WITH FREEZE-DRIED PINEAPPLES

Indications:
for cellulite-ridden skin

Active ingredients:
freeze-dried pineapple extract, anti-cellulite complex (ivy, ginger, guarana, melilot, marigold), coconut oil, sea algae, macadamia nut oil

Properties:
Reduces cellulite, firms and smoothes, leaving the skin moisturized, velvety smooth with the tropical scent of pina colada.

volume: 500 ml
number of treatments: 25
code: 53375

TROPICAL SCRUB WITH FREEZE-DRIED PINEAPPLES

Indications:
for all skin types, recommended for cellulite-covered skin

Active ingredients:
cane sugar crystals, anti-cellulite complex (ivy, ginger, guarana, melilot, marigold), almond oil, coconut oil, freeze-dried pineapples, coconut flakes

Properties:
The peeling perfectly cleanses dead skin cells, stimulates microcirculation, firms and reduces cellulite.

volume: 650 g
number of treatments: 6
code: 53355

* Available also in 200 g!

INDICATION:

- all skin types
- skin affected by cellulite

EFFECTS:

- reduces cellulite
- improves skin firmness and elasticity
- stimulates and strengthens tissue tension
- stimulates microcirculation

A proven method of fighting cellulite

Skin affected by cellulite requires a comprehensive approach supported by a balanced diet, physical activity and specialized skin care. Therefore, the **anti-cellulite complex** used in the **Pina Colada** line, consisting of extracts from: **ivy, ginger, guarana, melilot** and **marigold**, targets all causes of cellulite, which allows it to be effectively reduced. Thanks to its thermogenic properties, it stimulates lipolysis and fat breakdown and prevents their re-accumulation. Improves blood and lymph circulation, which prevents and reduces leg swelling. Anti-cellulite complex makes the skin more elastic, firm and visibly smoother.

Regional manager - trainer
Cosmetology expert
MSc Katarzyna Skoczek

MAIN ACTIVE INGREDIENTS:

FREEZE DRIED PINEAPPLES

Obtained as a result of the freeze-drying process, they retain all substances and nutritional effects, the enzyme bromelain and the aroma of fresh fruit.

COCONUT EXTRACT

Smoothes and softens the epidermis, strengthens the elasticity of the skin, perfectly moisturizes and nourishes.

GUARANA EXTRACT

Accelerates the reduction of adipose tissue, firms, smoothes and regenerates the skin.

SEA ALGAE EXTRACT

It improves blood circulation, soothes irritations and strengthens the skin's protective barrier.
Intensively moisturizes, restores skin firmness and elasticity.

API-PODO INTENSE

Products for podiatry offices

INTENSIVE SOFTENING FOOT PEARLS WITH AHA AND BHA ACIDS

Indications:
for very dry, rough foot skin, prone to excessive keratinization and calluses

Active ingredients:
urea 99% with AHA and BHA acids, fir extract, essential oils from: eucalyptus and rosemary

Properties:
Intensively soften calloused epidermis, facilitating its removal during podiatry and pedicure treatments.

volume: 800 g
number of treatments: 40-50
code: 54095

FOOT SOFTENING SPRAY WITH LACTIC ACID 10% AND UREA 30%

Indications:
for foot skin prone to excessive keratinization and calluses. Recommended for diabetics

Active ingredients:
30% urea, 10% lactic acid, fir extract

Properties:
Facilitates the gradual removal of dead skin and deep calluses. Accelerates the process of exfoliation and epidermal renewal. Intensively smoothes and prevents excessive keratinization.

volume: 300 ml
number of treatments: 150
code: 55025

INTENSIVE SMOOTHING CREAM FOR DRY FEET

Indications:
for very dry, rough foot skin

Active ingredients:
kokum butter, inulin, almond oil, urea 30%, hyaluronic acid, fir extract, vitamin E, d-panthenol, essential oils from: eucalyptus and lavender

Properties:
Immediately increases the level of hydration of the epidermis, accelerates regeneration, making the skin elastic and visibly smoother.

volume: 500 ml
number of treatments: 50
code: 55005

EXFOLIATING FOOT PEELING WITH AHA ACIDS AND UREA

Indications:
for very dry, rough foot skin, prone to excessive keratinization and calluses. Recommended for diabetics

Active ingredients:
AHA acids with salt crystals, urea, almond oil, fir extract, essential oils from: eucalyptus, rosemary

Properties:
Effectively removes calluses from the epidermis. The product eliminates the roughness of the skin, giving the feet a smooth appearance. It softens the skin, leaving it exceptionally soft and delicate to the touch.

volume: 700 g
number of treatments: 20-25
code: 55015

REGENERATING OINTMENT FOR DRY AND CRACKED HEELS

Indications:
for very dry, rough foot skin, prone to cracking of the epidermis of the heels and excessive keratinization. Recommended for diabetics

Active ingredients:
shea butter, almond and castor oils, bees, rice and carnauba waxes, fir and sage extracts, vitamins A and E, d-panthenol, lavender oil

Properties:
The preparation supports the regeneration of the epidermis, rebuilds the hydrolipid layer and significantly reduces the keratinization process.

volume: 100 ml
number of treatments: 20-25
code: 54085

REGENERATING COLLAGEN CONCENTRATE FOR NAILS

Indications:
for intensive regeneration of damaged nails and cuticles on hands and feet. Recommended for diabetics

Active ingredients:
85% regenerating complex: collagen, elastin, ceramides, hemp oil, vitamins A and E

Properties:
Thanks to carefully selected ingredients of the concentrate, nails grow faster, their structure is strengthened and they become more resistant to external factors.

volume: 30 ml
number of treatments: 60
code: 55035

API-ODO INTENSE

Products for podiatry offices

INDICATION:

- dry and rough skin of the feet
- tendency to hyperkeratosis and calluses
- tendency to epidermis cracking of the heels
- regeneration of damaged nails and cuticles

EFFECTS:

- facilitates the removal of epidermal thickening and calluses
- softens hard epidermis and limits excessive keratinization
- rebuilds cracked epidermis and brings relief to painful feet
- smoothes the dry surface of the feet, leaving them soft and moisturized
- nourishes nails, accelerates their growth and regeneration

How to treat the nail plate when it's condition is poor?

Collagen concentrate is a great product for dry, rough, brittle, thickened and calloused nails. It helps in solving the problem, quickly and effectively nourishes, regenerates and rebuilds the nail plate and bed. The combination of collagen, elastin and ceramides used in the preparation significantly improves their condition and beautiful appearance. The preparation is also recommended in therapies that require the reconstruction and growth of the nail plate after months/years of its absence or abnormal growth. It also supports the nails on which the styling is performed - by putting drops under the nail plate, you nourish the nail bed and thanks to the attached pipette, you can easily dispense the right amount of the preparation.

Podiatry specialist
Monika Marglewska

MAIN ACTIVE INGREDIENTS:

AHA AND BHA

The use of various acids - malic, lactic, tartaric, salicylic - regulates the skin cell renewal process. The mixture of acids loosens the connections between the cells of the stratum corneum, facilitates their exfoliation and prevents the accumulation and formation of epidermis thickening.

UREA

Urea is one of the components of the skin's natural moisturizing factor - NMF, which influences its proper hydration and elasticity. When used in lower concentrations, it helps bind water in the epidermis, softens and facilitates the penetration of active substances into the skin. In higher concentrations urea has an exfoliating effect, which facilitates the removal of calloused epidermis.

COLLAGEN AND ELASTIN

They support faster regeneration of the nail bed and folds, strengthen nails, make them more flexible and facilitate the healing of cracked nail plates.

ESSENTIAL OILS

Lavender, eucalyptus and rosemary, in addition to their beautiful scent, have an antiseptic effect on the skin. They support the regeneration of epidermis but also nails. They bring relief, refresh and relax the feet.

INULIN

A natural plant ingredient obtained from chicory root with strong skin smoothing properties. It creates a delicate film on the skin surface, which prevents moisture loss.

API-PODO

Podiatric foot line

SOFTENING FOOT SALT WITH UREA

Indications:
for all foot skin types

Active ingredients:
Dead Sea minerals, urea, extracts from arnica and water lily

Properties:
Perfectly softens calloused foot skin, cleanses and refreshes. Prepares feet for further podiatry treatments.

volume: 650 g
number of treatments: 10
code: 53825

CLEANSING FOOT SCRUB WITH DEAD SEA SALT AND VOLCANIC LAVA

Indications:
for all foot skin types

Active ingredients:
hemp oil, arnica extract, Dead Sea salt and volcanic lava

Properties:
Thoroughly removes dead cells of calloused epidermis, preparing feet for the application of further preparations.

volume: 700 g
number of treatments: 20-25
code: 53685

* Available also in 300 g!

FEET SOFTNER WITH 30% UREA

Indications:
for all skin types, especially for very dry feet, damaged with tendency for excessive keratinization

Active ingredients:
urea, extracts from: arnica, water lily, flax seed

Properties:
The gel intensively softens calloused, dry and rough foot skin. Facilitates the removal of calloused epidermis, preparing feet for further treatments.

volume: 500 ml
number of treatments: 50
code: 53695

* Available also in 100 ml!

REGENERATING AND HYDRATING FEET CREAM WITH 20% UREA AND IONIZED SILVER

Indications:
for all skin types, especially for very dry feet, damaged with tendency for excessive keratinization

Active ingredients:
ionized silver, hemp oil, urea, hyaluronic acid

Properties:
The cream is perfectly absorbed, moisturizes, smoothes and regenerates. Prevents excessive dryness and roughness of the epidermis.

volume: 500 ml
number of treatments: 50
code: 53705

* Available also in 100 ml!

INDICATION:

- all types of foot skin
- dry and rough skin of the feet
- tendency to hyperkeratosis

EFFECTS:

- strong softening of the stratum corneum - 30% urea
- strong regeneration of dry and damaged feet
- softening and refreshing of chapped skin

MAIN ACTIVE INGREDIENTS:

UREA

Provides deep hydration and prevents excessive loss of moisture. Perfectly softens calloused epidermis.

HEMP OIL

Perfectly oils, soothes inflammations and has antibacterial properties.

DEAD SEA SALT

Has a unique therapeutic and skin-caring effects.

OTHER PRODUCTS

CLEANSING MICELLAR WATER FOR FACE AND EYE MAKE-UP REMOVAL

Indications:
for all skin types

Active ingredients:

A light, odorless liquid that gently but effectively removes makeup without rinsing. It leaves the skin smooth, soft and thoroughly cleansed.

volume: 500 ml
number of treatments: 60
code: 52175
*Available also in 300 ml

SMOOTHING HYDROGEL TONER WITH HYALURONIC ACID

Indications:
for all skin types

Active ingredients:
hyaluronic acid, extracts of: cucumber, flax, Peruvian Tara plant

Properties:
Hydrogel tonic used systematically gives the effect of excellent hydration and smoothing of the skin.

volume: 500 ml
number of treatments: 60
code: 53055
*Available also in 300 ml

CLEANSING HYDROGEL TONER WITH MANDELIC ACID

Indications:
for all skin types, (except sensitive skin)

Active ingredients:
mandelic acid, aloe vera extract, Hydromanil™ complex, d-panthenol

Properties:
A cleansing tonic that gently exfoliates dead skin cells, improves skin structure, brightens sun discolorations, has antibacterial properties, soothes skin inflammation. The result is perfectly cleansed skin with even skin tone.

volume: 500 ml
number of treatments: 60
code: 53045
*Available also in 300 ml

SMOOTHING TONER WITH LACTIC ACID

Indications:
for all skin types

Active ingredients:
lactic acid, sea algae extract, hyaluronic acid, d-panthenol

Properties:
The tonic gently cleanses the skin of dead skin cells. Intensively moisturizes, providing the skin with perfect smoothness and illumination.

volume: 500 ml
number of treatments: 60
code: 53035

SPF 30 PROTECTIVE FACE CREAM NEW IMPROVED FORMULA

Indications:
for sensitive skin with discoloration, after exfoliation and brightening treatments

Active ingredients:
oils: argan, sunflower, shea butter, extracts of: sea algae, mimosa, aloe vera, silk protein

Properties:
A preparation with a light consistency and optimal protection against the harmful effects of sun radiation. Contains UVA/UVB filters (SPF 30) that protect against photoaging and drying of the skin. Recommended after exfoliating and brightening treatments. Intensively moisturizes, smoothes and calms irritations.

volume: 100 ml
number of treatments: 30
code: 51585

SPF 50 PROTECTIVE FACE CREAM

Indications:
for all skin types, prone to discoloration. Recommended after exfoliating and brightening treatments

Active ingredients:
oils: monoi, raspberry, argan, sunflower, carotene, hyaluronic acid, d-panthenol, Lithops pseudotruncatella stem cell nectar

Properties:
A modern formula of the cream with a high protection factor against UVA/UVB sun radiation. Thanks to innovative organic filters enclosed in mineral silica microcapsules, it is well tolerated, even by people with sensitive skin.

volume: 100 ml
number of treatments: 30
code: 54065

OTHER PRODUCTS

SOFTENING MASK WITH LINSEED (WITH OR WITHOUT THE VAPOZONE)

Indications:
for all skin types, especially sensitive or with capillary problems

Active ingredients:
extracts of: flax seeds, aloe vera, algae, linden, sunflower oil

Properties:
Effectively softens and loosens the epidermis preparing it for cleansing. Unblocks and cleanses skin pores.

volume: 200 ml
number of treatments: 23
code: 50385

ENZYMATIC GOMMAGE SCRUB

Indications:
for normal and sensitive skin

Active ingredients:
papain enzyme, d-panthenol, extracts of: sea algae, arnica, water lily, massaging particles, polysaccharides

Properties:
Gel peeling that gently exfoliates the dead layer of epidermis. Thanks to massaging microparticles that act like an abrasive eraser, it allows you to reveal your natural glow. It provides the skin with proper hydration, smoothing and illumination.

volume: 200 ml
number of treatments: 23
code: 53815
* Available also in 100 ml

SKIN SOFTENING MASK WITH A SOOTHING EFFECT

Indications:
for all skin types, especially for ones with a low pain resistance threshold

Active ingredients:
extracts of: flax seeds, mint, linden, sea algae, sunflower oil

Properties:
Thanks to carefully selected ingredients, the mask perfectly softens, opens pores and prepares the skin for professional cleansing. It soothes and minimizes pain, making the cleansing process easy and painless.

volume: 200 ml
number of treatments: 23
code: 50395

ULTRASOUND GEL

Indications:
for all skin types

Active ingredients:
hyaluronic acid

Properties:
The gel is intended for treatments using ultrasound, sonophoresis, iontophoresis, needle-free mesotherapy, radio waves, ultrasonic liposuction as well as for a photon ultrasonic massager. It has excellent glide on the skin, ensures good conduction of ultrasonic waves and moisturizes.

volume: 500 ml
number of treatments: 20-25
code: 53625

ENZYMATIC FACE WASHING POWDER

Indications:
for all skin types (**recommended for skin with acne vulgaris and rosacea**)

Active ingredients:
extracts of: papaya, pineapple, papain and bromelain enzymes

Properties:
Enzymatic powder for face cleansing, which turns into a delicate foam in contact with water. Perfectly eliminates impurities on the skin surface and reduces sebum secretion. The product smoothes, moisturizes, gives the skin a healthy look and glow. Prepares the skin for further beauty treatments.

volume: 80 g
number of treatments: 15
code: 53905

MASSAGE PRODUCTS

ORIENTAL SMOOTHING OIL FOR FACE MASSAGE

Indications:
for mature skin

Active ingredients:
oils: macadamia, argan, sesame, sunflower, shea butter, prickly pear extract

Properties:
The product is very effective for dry and mature skin care, because it supports the renewal of the hydrolipid coat and replenishes the deficiencies of ceramides, which are cellular cement. It has strong firming and smoothing properties. Gives the skin radiance and silky smoothness.

volume: 30 ml
number of treatments: 15
code: 51925

NATURAL SHEA BUTTER WITH MOROCCAN ARGAN OIL AND BAOBAB

Indications:
for very dry skin

Active ingredients:
oils: argan, baobab, shea butter

Properties:
Under the influence of body heat, it dissolves on the skin, creating perfect glide during the massage. Gently lubricates and regenerates the epidermis. It soothes the skin tension caused by dryness, providing a feeling of maximum comfort.

volume: 100 g
number of treatments: 25
code: 51525

REGENERATING CREAM MASK FOR FACE MASSAGE

Indications:
for all skin types

Active ingredients:
oils: monoi, macadamia, almond, shea butter, hyaluronic acid, Hydromanil™, 6 active amino acids

Properties:
The cream-mask is a multifunctional preparation that acts on various levels of the skin during a massage of the face, neck and cleavage. The result is perfectly regenerated, nourished, moisturized and relaxed skin.

volume: 200 ml
number of treatments: 20-23
code: 53615

Massage benefits for the skin

Regularly performed facial massage not only brings a relief and relaxation, but also gives many benefits to our skin. By improving microcirculation, it accelerates the delivery of oxygen and nutrients to cells, which leads to increased skin firmness and elasticity. **Additionally, it improves face oval and relaxes muscle tension, which makes the face looking more rested.** Stimulated lymph flow promotes the removal of stasis and swelling. Massage also helps to remove dead skin cells and warms up the skin, supporting the penetration of active substances. It is important to avoid excessive stretching of the skin during the massage and to perform it in accordance with the course of the muscles.

NATURAL BRUSH FOR DRY BODY MASSAGE

material: 100% frame made of natural
beech wood
code: 6952

DEPIQ PRO SYSTEM PROCEDURE

PRODUCTS USED:

1. Depigmenting peeling with tranexamic acid 1% and ficin
2. Mask for advanced depigmentation of discolorations
3. Depigmenting ampoule with α -arbutin 1% and brightening complex 2%
4. Algae mask – dedicated to the skin needs
5. Protective face cream SPF 30/ Protective face cream SPF 50

HOME THERAPIS SKIN CARE:

1. Depigmenting booster with α -arbutin 1% and brightening complex 1%
2. Depigmenting cream-mask with α -arbutin 1% for night

COURSE OF THE TREATMENT:

STEP 1

Remove make-up and cleanse the skin using products appropriately selected for the skin type.

STEP 2

Tone and dry the skin with a tissue.

STEP 3

Apply **Depigmenting Peeling** to the treatment area, avoiding the eye and lip area. Leave the preparation for about 10 minutes. Wash off with lukewarm water, then tone and dry the skin.

STEP 4

In a glass bowl, prepare the **Mask for advanced depigmentation of discolorations**. To use it, combine 1 capsule with 1 activator (if necessary, combine 1 capsule with 2 activators) and mix until a uniform consistency is obtained. Apply the mask to the skin with a spatula and leave for about 15-20 minutes. After the time has passed, wash it off with lukewarm water. The time is adjusted individually to the needs and condition of the patient's skin.

STEP 5

Apply the **Depigmenting Ampoule** to the skin and carry out the treatment procedure in accordance with the intended use of cosmological devices or leave the preparation to absorb. To achieve better results, the preparation can be introduced using ultrasound, needle-free mesotherapy, iontophoresis, oxygen infusion or applied under an algae mask.

STEP 6

To calm down the skin, apply an algae mask appropriate to its condition.

STEP 7

At the end of the treatment, apply **SPF 30 or SPF 50 sun protective cream**.

SUGGESTED NUMBER OF TREATMENTS:

As a brightening treatment, 4-6 treatments once a week are recommended.

TREATMENT TIME:

about 60 minutes

OUR PRO TIP:

This procedure can be performed all year round. For the best results of brightening treatment, we recommend using **SPF 30 or SPF 50 protective cream** every day.

In order to maintain and deepen the effects of the treatment, we recommend using home skin care products from the **Home Therapis line**:

1. **DepiQ Pro System**, Depigmenting booster with α -arbutin 1% and brightening complex 1%
2. **DepiQ Pro System**, Depigmenting cream-mask with α -arbutin 1% for night

Do you know that...

The natural form of α -arbutin used in the **DepiQ Pro System** line provides the products with safer removal of discolorations but also much greater effectiveness. It can be used safely all year round. Additionally, it has better stability than β -arbutin. Natural α -arbutin blocks epidermal melanin biosynthesis by reducing tyrosinase activity. Thanks to this, it prevents the formation of dark spots on the skin and can be used as an ideal agent for brightening discolorations.

PROCEDURE WITH ACIDS AND MICRONEEDLING

PRODUCTS USED:

1. Cleansing micellar water
2. Cleansing hydrogel toner with mandelic acid
3. 40% Mandelic acid/ 40% Ferulic acid/
40% Ascorbic acid
4. Neutralising gel
5. Hyaluron 4D with Snap 8™ Peptide/ Hyaluron 4D
with Argireline™ Peptide/ Hyaluron 4D
6. Algae mask OXY O₂ TerApis/ Algae mask
Raspberry Glow
7. Protective face cream SPF 30/ Protective face cream SPF 50

COURSE OF THE TREATMENT:

STEP 1

Remove face, neck and cleavage make up using **micellar water**.

STEP 2

Tone the skin with a **hydrogel toner with mandelic acid** (cavitation peeling can be performed).

STEP 3

Protect all sensitive points with the use of shea butter or Vaseline. Skip the eyes and mouth.

STEP 4

Protect the eyes with wet cosmetic pads.

STEP 5

Apply an even layer of **acid** to the face, neck and cleavage with a brush. Exposure time is about 1-8 minutes, however, adjust it individually to the needs and condition of the patient's skin; the given time is only a suggested time.

STEP 6

To stop the acid, apply the **neutralizer** for 1-2 minutes, then wash it off with cool water.

STEP 7

Prepare the skin for micro-needling by disinfecting the skin with hydrogen peroxide.

STEP 8

Apply the selected **HYALURON 4D** and perform microneedle mesotherapy adjusting the length of the needles to the condition of the patient's skin (0.2-0.75).

STEP 9

Mix the selected **algae mask** with still mineral water until smooth consistency is obtained and apply to the treated area. Keep the mask on the skin until it is concentrated (15-20 minutes). After it firms remove the mask by pulling the whole thing off, wash off any remaining residues with water.

STEP 10

At the end of the treatment apply a protective **cream with SPF 30 or SPF 50 filter** on the face, neck and cleavage.

SUGGESTED NUMBER OF TREATMENTS:

The procedure is individually chosen for the patient's needs.
Recommended: 3-6 treatments every 4-8 weeks.

TREATMENT TIME:

about 60-90 minutes

EFFECTS:

- increased skin tension, firmness and elasticity,
- regeneration and stimulation of fibroblasts,
- improved skin hydration,
- wrinkle reduction

INDICATION:

Treatment for mature skin with visible signs of aging in the form of wrinkles, furrows, deterioration of the facial oval, for discolouration and acne scars.

CONTRAINDICATIONS:

Irritated skin, inflammatory processes, atopic dermatitis, active herpes, tendency to form scars, condition after facial surgery (up to 2 months), oral, long-term steroid therapy, pregnancy, breastfeeding, psoriasis, sunburn, numerous moles.

FACE TREATMENT

PRODUCTS USED:

1. Cleansing micellar water
2. Toner/ Mist
3. Peeling
4. Butter/ oil/ cream/ cream mask
5. Cream mask/ gel mask
6. Concentrate/ ampoules
7. Algae mask
8. Cream/ serum/ eye serum

COURSE OF THE TREATMENT:

STEP 1

Remove eyes and mouth make-up thoroughly using **micellar water**. Clean face, neck and cleavage thoroughly with a make-up removal **lotion**.

STEP 2

Tone the skin of the face, neck and cleavage with a **toner** using cotton pads or a selected **mist**.

STEP 3

Apply a suitable **peeling** onto face, neck and cleavage, massage gently for several minutes. Wash off with lukewarm water, dry and tone the skin.

STEP 4

Carry out a 15-minute massage using a product suitable for the skin. If necessary, rinse the residue of the product with lukewarm water, dry and tone the skin.

STEP 5

Apply the selected **cream mask** or **gel mask** to the face, neck and cleavage (avoiding the eye and mouth areas) and leave for 15 minutes. Rinse with lukewarm water, dry and tone the skin.

STEP 6

Distribute the selected **concentrate** (or an **ampoule**) over face, neck. Massage the product by hand or apply with ultrasound, adding the appropriate amount of **gel to the ultrasounds**.

STEP 7

Prepare the **algae mask** as indicated on the package. Quickly apply the prepared mask and leave for 20 minutes. After it's firm, remove it completely and wash off any residues with a **toner**.

STEP 8

Finish the treatment by applying a suitable **cream** or **serum** to the eye area. Apply the selected **cream** or **serum** to the face, neck and cleavage area.

SUGGESTED NUMBER OF TREATMENTS:

A single treatment or series of 4-6 treatments once a week.

TREATMENT TIME:

about 60-90 minutes

OUR PRO TIP:

Due to various types of skin problems, product lines can be combined to create unique treatments tailored to the needs of the client's / patient's skin. All products are compatible with each other.

SERUM VS CREAM

Serum is a lighter and more concentrated alternative to cream. It can be used at the end of the treatment if you want to get the effect of silky, fresh skin.

The cream, on the other hand, has a heavier formula, it is perfect at the end of the treatment and for home care, used both during the day and at night.

GEL MASKS IN TREATMENTS HAVE SEVERAL FUNCTIONS:

- the combination of a gel mask with an algae mask makes the mask more plastic and easier to apply. The effect of combining masks is more intense hydration of the skin,

- gel masks are also a great product for massages and ultrasound treatments.

EXFOLIATING TREATMENT

PRODUCTS USED:

1. Cleansing micellar water/ Cleansing face gel
2. Cleansing hydrogel toner with mandelic acid
3. Selected acid
4. Neutralizing gel
5. Dermasoft
6. Selected algae mask/ Soothing mask after acid treatment
7. Protective face cream SPF 30/ Protective face cream SPF 50

COURSE OF THE TREATMENT:

STEP 1

Remove face and neck make up using **micellar water**.

STEP 2

Tone the skin using **hydrogel toner with almond acid** (avoid the area around the eyes and mouth).

STEP 3

Protect all sensitive areas with shea butter or vaseline. Avoid applying the butter or the vaseline on the eyes or the mouth.

STEP 4

Protect the eyes with wet cotton pads.

STEP 5

Apply an even layer of the **acid** onto face, neck and cleavage. The time of exposure to exfoliators is about 1-8 minutes, however the time should be determined individually, considering patient's needs and the condition of his/her skin; the time given is for indicative purposes only.

STEP 6

In order to stop the influence of the acid, apply the **neutralizer** and leave on for 1-2 minutes, rinse with cool water.

STEP 7

In order to calm the skin, apply **Dermasoft**.

STEP 8

Mix the selected **algae mask** with still mineral water mineral water to a smooth consistency and apply to the treated area. Keep the mask on the skin until it congeals (15-20 minutes). After hardening, remove the mask, wash off any residues with water. If the skin is very irritated, instead of an algae mask, apply a **soothing mask** with a brush after the acid treatment. After about 20 minutes, wash off with lukewarm water.

ETAP 9

Apply the **cream with SPF 30 or SPF 50 filter** onto face, neck and cleavage.

SUGGESTED NUMBER OF TREATMENTS:

6-10 treatments every 7th/14th/21st day, depending on the state of the skin and the desired effect. It is recommended to do this cycle once / twice a year.

TREATMENT TIME:

about 60 minutes

OUR TIP TO SOOTHE THE SKIN BETTER:

The revolutionary combination of an algae mask with a gel mask allows the skin to breathe both on the surface and in its deeper layers. In addition, it will provide a feeling of amazing refreshment, freshness and relief, especially after treatments: acid exfoliation, aesthetic medicine and micro-dermabrasion.

FOOT TREATMENT

PRODUCTS USED:

1. Salt/pearls/softening gel/spray*
2. Peeling
3. Concentrate
4. Cream/ointment*

TREATMENT TIME:

about 45 minutes

PODOLOGY TREATMENT

STAGE 1

Disinfect client's feet.

STAGE 2

Locally, apply a **spray/gel that softens the calluses** or prepare a foot bath. Add the appropriate amount of **salt or pearls** to a bowl of warm water and soak patient's feet for 10-15 minutes. After that time take them out and dry.

STAGE 3

After correcting nails and calluses, apply the **peeling** to patient's feet and massage gently for a few minutes. Then wash it off with lukewarm water and dry.

STAGE 4

Apply collagen **concentrate** to the patient's nails.

STAGE 5

Massage a small amount of **cream** or **ointment** into the feet. Leave to absorb.

*The preparation should be selected individually, taking into account the condition of the patient's feet.

SUGGESTED NUMBER OF TREATMENTS:

A single treatment or as a part of series:

1 treatment performed 4-6 weeks apart. The number and duration of treatments are determined individually.

OUR PRO TIP:

It is important to remember to take care of feet all year round - not just in summer. What matters in foot care is regularity which prevents the growth of a layer of calloused epidermis. If the skin of the feet requires greater exfoliation of the stratum corneum, we can use acids, e.g. glycolic, from exfoliation treatments.

Do you know that...

If we want to perform a pedicure and we cannot soften the epidermis by soaking it in water with salt or softening pearls, we can use a softening gel with 30% urea from the Api-Podo line or a softening spray from the Api-Podo Intense line.

Intensive preparations are intended for professional pedicure treatments, they contain carefully selected ingredients that effectively soften calloused epidermis and prepare the skin for the full procedure.
